DIN EN 14037-3:2016-12 (E)

Free hanging hea ting and cooling surfaces for water with a temperature below 120 Â°C - Part 3: Prefabricated ceiling mounted radiant panels for space heating- Rating method and evaluation of radiant thermal output

Contents

Page

European foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Testing of the mean surface temperature and the emissivity of the panel 5
4.1 Determination of the mean surface temperature of the active length 5
4.2 Determination of the emissivity 6

5 Thermal output conversion - Determination of the rated thermal output 7

6 Evaluation of the thermal radiant output of a tested panel 7
