ISO 14644-10:2013-03 (E)

Cleanrooms and associated controlled environments - Part 10: Classification of surface cleanliness by chemical concentration

Contents

Page

Foreword iv

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Classification 2
4.1 Principles for establishing classification of clean surfaces in cleanrooms and controlled environments 2
4.2 Classification for surface cleanliness by chemical concentration 2
4.3 ISO-SCC designation 4
4.4 Converter for substances into surface atomic concentration 4

5 Measuring and monitoring the cleanliness of surfaces for chemical contamination and demonstration of compliance 5
5.1 Criteria for good cleanliness assessment 5
5.2 Documentation and reporting 6

Annex A (informative) Conversion between different unit expressions of surface concentration for chemical substances 8

Annex B (informative) Parameters influencing testing and interpretation of results 15

Annex C (informative) Essential considerations for a good cleanliness assessment 16

Annex D (informative) Methods for testing surface cleanliness by chemical concentration 17

Annex E (informative) Test record documentation 28
