# ISO 9806-3:1995-12 (E)

## Test methods for solar collectors - Part 3: Thermal performance of unglazed liquid heating collectors (sensible heat transfer only) including pressure drop

## Contents

Page

1 Scope ..... 1

2 Normative references ..... 1

3 Definitions ..... 2

4 Symbols and units ..... 2

5 Collector mounting and location ..... 2

6 Instrumentation ..... 4

7 Test Installation ..... 8

8 Outdoor steady-state efficiency test ..... 11

9 Steady-state efficiency test using a solar irradiance Simulator ..... 15

10 Determination of the effective thermal capacity and time constant of a collector ..... 16

11 Determination of the pressure drop across a collector ..... 18

Annexes

A Format sheets for test data ..... 20

B Collector incident angle modifier ..... 31

C Unglazed solar collector characteristics ..... 33

D Properties of water ..... 35

E Bibliography ..... 36
