European foreword 4

Introduction 5

1 Scope 7

2 Normative references 9

3 Terms and definitions 9

4 Symbols and abbreviations 10
4.1 Symbols 10
4.2 Subscripts 10

5 Description of the method 10
5.1 Output of the method 10
5.2 General description of the method 11

6 Calculation Method 11
6.1 Output data 11
6.2 Calculation time steps 12
6.3 Input data 12
6.4 Monthly and yearly calculation procedure 15
6.5 Hourly calculation procedure 20

7 Quality control 24

8 Compliance check 24

Annex A (normative) Template for choices, input data and references (Additional heating and cooling losses / auxiliary energy) 25

A.1 Introduction 25
A.2 Temperature variation for free heating surfaces (radiators), room heights 4 m (heating case) 26
A.3 Temperature Variation for component integrated heating surfaces (panel heaters) (room heights 4 m, heating case) 28
A.4 Temperature variation for air heating systems; room heights 4 m (heating case) 30
A.5 Temperature Variation for electrical heating (room heights 4 m, heating case) 31
A.6 Temperature Variation air heating (ventilation systems, room heights 4 m, heating case) 32
A.7 Temperature variation for room spaces with heights > 4 m (large indoor space buildings, heating case) 32
A.8 Temperature variation for room heaters fired by solid fuel 35
A.9 Temperature variation for water based cooling systems; room heights 4 m (cooling case) 36
A.10 Auxiliary Energy 37
A.11 Additional Information 38

Annex B (informative) Default choices, input data and references (additional heating and cooling losses / auxiliary energy) 40

B.1 Introduction 40
B.2 Temperature variation for free heating surfaces (radiators); room heights 4 m (heating case) 41
B.3 Temperature Variation for component integrated heating surfaces (panel heaters) (room heights 4 m, heating case) 43
B.4 Temperature variation for air heating systems; room heights 4 m (heating case) 45
B.5 Temperature Variation for electrical heating (room heights 4 m, heating case) 46
B.6 Temperature Variation air heating (ventilation systems, room heights 4 m, heating case) 47
B.7 Temperature variation for room spaces with heights > 4 m (large indoor space buildings, heating case) 47
B.8 Temperature variation for room heaters fired by solid fuel 50
B.9 Temperature variation for water based cooling systems; room heights 4 m (cooling case) 51
B.10 Auxiliary Energy 52
B.11 Additional Information 53
