European foreword 3

1 Scope 5

2 Normative references 5

3 Terms and definitions 5
3.1 General terms and definitions 5
3.2 Terms and definitions relevant to eco-design and labelling regulations terms 6

4 Performance requirements 6
4.1 General 6
4.2 Boiler efficiency 6
4.2.1 Air ratio for efficiency measurement 6
4.2.2 Boilers of heat output 70 kW 6
4.2.3 Boilers of heat output > 70 kW and 400 kW 7
4.2.4 Boilers of heat output > 400 kW and 1000 kW 7
4.3 Draught requirements and gas side resistance 7
4.4 Emission values 7
4.5 Standby heat loss 7
4.6 Auxiliary electricity consumption 8
4.7 Sound power level 8
4.8 Samples for testing 8

5 Material performance 8
5.1 General 8
5.2 Test specimen and test duration 8
5.3 Adjustment values for the test 8

Annex A (normative) Assembly criteria 11

Annex B (informative) Example of test evaluation for a 3-months duration test 13

Annex ZA (informative) Relationship between this European Standard and the ecodesign requirements of Commission Regulation (EU) No [813/2013] aimed to be covered 15
