

# ISO 18566-4:2017-06 (E)

## Building environment design - Design, test methods and control of hydro nic radiant heating and cooling panel systems - Part 4: Control of ceiling mounted radiant heating and cooling panels

---

| <b>Contents</b>       |  | <b>Page</b> |
|-----------------------|--|-------------|
| Foreword .....        |  | iv          |
| Introduction .....    |  | v           |
| 1                     | Scope .....  | 1           |
| 2                     | Normative references .....   | 1           |
| 3                     | Terms and definitions .....  | 1           |
| 4                     | Symbols .....  | 1           |
| 5                     | Controls .....   | 1           |
| 5.1                   | General .....  | 1           |
| 5.2                   | Central control .....  | 4           |
| 5.3                   | Zone control .....   | 5           |
| 5.4                   | Local (space) control .....  | 5           |
| 5.5                   | Influence of thermal mass of panel systems .....   | 5           |
| 5.6                   | Self-regulating effect .....   | 5           |
| 5.7                   | Flow control .....   | 6           |
| Annex A (informative) | Control of ceiling mounted radiant panel cooling system for prevention of surface condensation ..... | 7           |
| Bibliography .....    |  | 8           |
