|------------------------|---|-------------|
| European foreword..... |   | 4           |
| Introduction .....     |   | 7           |
| 1                      | Scope.....  | 9           |
| 2                      | Normative references.....                             | 9           |
| 3                      | Terms and definitions .....                           | 9           |
| 4                      | Symbols, subscripts and abbreviations.....            | 9           |
| 5                      | Brief description of the methods and routing .....    | 9           |
| 5.1                    | Output of the method.....                             | 9           |
| 5.2                    | General description of the methods.....               | 9           |
| 5.2.1                  | Method A.....   | 9           |
| 5.2.2                  | Method B.....   | 10          |
| 5.3                    | Selection criteria between the methods .....          | 10          |
| 6                      | Calculation method - Method A .....                   | 11          |
| 6.1                    | Output data.....                                      | 11          |
| 6.2                    | Calculation time interval and calculation period..... | 11          |
| 6.3                    | Input data.....                                       | 11          |
| 6.3.1                  | Source of data .....                                  | 11          |
| 6.3.2                  | Product data — Product technical data .....           | 12          |
| 6.3.3                  | System design data .....                              | 13          |
| 6.3.4                  | Operating conditions .....                            | 13          |
| 6.3.5                  | Constants and physical data.....                      | 13          |
| 6.4                    | Calculation procedure .....                           | 13          |
| 6.4.1                  | Applicable calculation interval .....                 | 13          |
| 6.4.2                  | Operating conditions calculation .....                | 13          |
| 6.4.3                  | Energy calculation .....                              | 14          |
| 7                      | Calculation method - Method B .....                   | 14          |
| 7.1                    | Output data.....                                      | 14          |
| 7.2                    | Calculation time interval and calculation period..... | 14          |
| 7.3                    | Input data.....                                       | 14          |
| 7.3.1                  | Product description data (qualitative) .....          | 14          |
| 7.3.2                  | Product technical data .....                          | 15          |
| 7.3.3                  | System design data .....                              | 15          |
| 7.3.4                  | Operating conditions .....                            | 16          |
| 7.3.5                  | Simplified input .....                                | 16          |
| 7.4                    | Calculation procedure .....                           | 20          |
| 7.4.1                  | Assumptions.....                                      | 20          |
| 7.4.2                  | Possible origin of errors.....                        | 20          |
| 7.4.3                  | Possible iteration convergence problems.....          | 20          |
| 8                      | Quality control .....                                 | 20          |
| 9                      | Compliance check.....                                 | 20          |
| 10                     | Worked out examples, method A — Example 1 .....       | 20          |
| 10.1                   | Description .....                                     | 20          |
| 10.2                   | Calculation details .....                             | 30          |
| 10.3                   | Observations.....                                     | 30          |

|                |  |           |
|----------------|--|-----------|
| <b>11</b>      | <b>Worked out examples, method B</b> .....   | <b>31</b> |
| <b>11.1</b>    | <b>Example 1</b> .....   | <b>31</b> |
| <b>11.1.1</b>  | <b>Description</b> .....   | <b>31</b> |
| <b>11.1.2</b>  | <b>Calculation details</b> .....   | <b>31</b> |
| <b>11.2</b>    | <b>Example 2</b> .....   | <b>31</b> |
| <b>11.2.1</b>  | <b>Description</b> .....   | <b>31</b> |
| <b>11.2.2</b>  | <b>Calculation details</b> .....   | <b>31</b> |
| <b>12</b>      | <b>Validation of the calculation procedures</b> .....                              | <b>32</b> |
