DIN EN 12976-2:2019-11 (E)

Thermal solar systems and components - Factory made systems - Part 2: Test methods

Contents

Page

European foreword 4

Introduction 6

1 Scope 8

2 Normative references 8

3 Terms and definitions 8

4 Symbols and abbreviations 9

5 Testing 9
5.1 Freeze resistance 9
5.1.1 General 9
5.1.2 Systems using antifreeze fluid 9
5.1.3 Drain-back systems 10
5.1.4 Drain-down systems 10
5.1.5 Freeze protection and combined control functions 10
5.1.6 Other systems 11
5.2 Over temperature protection 11
5.2.1 Purpose 11
5.2.2 Apparatus 11
5.2.3 Procedure 11
5.2.4 Reporting requirements 12
5.3 Pressure resistance 12
5.3.1 Purpose 12
5.3.2 Apparatus 12
5.3.3 Safety precaution 13
5.3.4 Procedure 13
5.3.5 Reporting requirements 14
5.4 Water contamination 14
5.5 Testing the resistance against mechanical load 15
5.5.1 Purpose 15
5.5.2 Apparatus 15
5.5.3 Safety precaution 16
5.5.4 Calculation procedure for the mechanical load 16
5.5.5 Procedure 18
5.5.6 Reporting requirements 18
5.6 Lightning protection 19
5.7 Safety equipment 19
5.7.1 Safety valves 19
5.7.2 Safety lines and expansion lines 20
5.7.3 Blow-off lines 20
5.8 Labelling 20
5.9 Thermal performance characterization 21
5.9.1 Introduction 21
5.9.2 Test procedure 21
5.9.3 Prediction of yearly performance indicators 22
5.10 Ability of solar-plus-supplementary systems to cover the load 29

5.10.1 General ... 29
5.10.2 Boundary conditions for auxiliary heating ... 30
5.10.3 Boundary conditions for daily load ... 30
5.10.4 Determination of the ability to cover the maximum daily load by means of testing the system ... 31
5.10.5 Determination of the ability to cover the maximum daily load by means of numerical simulations ... 31
5.10.6 Determination of the ability to cover the daily load defined by the European load profiles by means of numerical simulations ... 31
5.10.7 Requirements for mixed water at 40 °C ... 32
5.11 Reverse flow protection ... 33
5.12 Electrical safety ... 33

Annex A (normative) Thermal performance presentation sheet ... 34

Annex B (normative) Reference conditions for performance prediction ... 36

Annex C (informative) Assessment of the ability of solar DHW systems to resist the extreme climatic conditions ... 45

Annex D (informative) Ageing test for thermostatic valves ... 54

Annex E (informative) Lightning protection test for solar heating systems ... 57

Annex F (informative) Lightning Protection testing sheet ... 60

Annex G (normative) Reporting format in the framework of the EU Regulations CDR 811, 812 and 814 dated 2013 ... 64

Annex ZA (informative) Relationship between this European Standard and the energy labelling requirements of Commission Delegated Regulation (EU) No 811/2013 aimed to be covered ... 65

Annex ZB (informative) Relationship between this European Standard and the energy labelling requirements of Commission Delegated Regulation (EU) No 812/2013 aimed to be covered ... 67

Annex ZC (informative) Relationship between this European Standard and the ecodesign requirements of Commission Regulation (EU) No 814/2013 aimed to be covered ... 70

Bibliography ... 72
