DIN EN 1264-4:2021-08 (E)

Water based surface embedded heating and cooling systems - Part 4: Installation

Contents

Page

European foreword 3

1 Scope 5

2 Normative references 5

3 Terms and definitions 6

4 Requirements 6
4.1 Hydronic balancing 6
4.2 Floor heating and cooling systems 6
4.2.1 General structural preconditions 6
4.2.2 Building layers, building components 6
4.2.3 Leak test 12
4.2.4 Initial heating up of the emission system 13
4.2.5 Heating up for readiness for covering 14
4.2.6 Floor coverings 14
4.3 Heating and cooling systems embedded in ceilings and walls 14
4.3.1 Preface 14
4.3.2 General structural preconditions 14
4.3.3 Insulation 15
4.3.4 Maximum flow temperatures 15

Annex A (informative) Corrosion Prevention 16

A.1 Oxygen Barrier Layer 16
A.2 Adoption of specific inhibitory products 16

Annex B (informative) Initial heating up protocol 17
