Page

European foreword ... **4**
Foreword ... **5**
Introduction ... **6**
1 Scope ... **7**
2 Normative references ... **7**
3 Terms and definitions ... **8**
4 Classification ... **12**
4.1 Classes of control ... 12
4.2 Groups of control ... 12
4.3 Types of DC supplied controls ... 12
5 Test conditions ... **12**
6 Construction ... **13**
6.1 General ... 13
6.2 Construction requirements ... 13
6.2.1 Appearance ... 13
6.2.2 Holes ... 13
6.2.3 Flexible diaphragm, bellows or similar construction ... 13
6.2.4 Screwed fastenings ... 13
6.2.5 Jointing ... 14
6.2.6 Moving parts ... 14
6.2.7 Sealing caps ... 14
6.2.8 Dismantling and reassembling for servicing and/or adjustment ... 14
6.2.9 Auxiliary channels ... 15
6.2.10 Resistance against pressure ... 15
6.2.11 Connections ... 15
6.3 Materials ... 15
6.3.1 General material requirements ... 15
6.3.2 Springs ... 16
6.3.3 Resistance to corrosion and surface protection ... 16
6.3.4 Impregnation ... 16
6.3.5 Seals for glands for moving parts ... 16
6.3.6 Non-metallic sealing materials ... 16
6.3.7 Actuators ... 16
6.3.8 Enclosures ... 17
6.3.9 Extra low voltage terminals ... 17
6.4 Oil connections ... 17
6.4.1 Making connections ... 17
6.4.2 Connection sizes ... 17
6.4.3 Threads ... 17
6.4.4 Union Joints ... 18
6.4.5 Flanges ... 19
6.4.6 Compression fittings ... 19
6.4.7 Nipples for pressure tests ... 19
6.4.8 Welded connections ... 19
6.5 Strainers ... 19
6.6 Indicator ... 20
6.6.1 Position indicator ... 20
6.6.2 Closed position indicator switch ... 20

7 Performance 20
7.1 General 20
7.2 Leak-tightness 21
7.2.1 Criteria 21
7.2.2 Test for leak-tightness 21
7.3 Torsion and bending 22
7.3.1 General 22
7.3.2 Torsion 22
7.3.3 Bending moment 22
7.3.4 Torsion and bending tests 22
7.3.5 Hydrostatic strength test 26
7.4 Rated oil flow 26
7.4.1 Criteria 26
7.4.2 Test of flow capacity 26
7.5 Durability 26
7.5.1 Elastomers in contact with oil 26
7.5.2 Resistance to oil 26
7.5.3 Marking resistance 27
7.5.4 Resistance to scratching 27
7.5.5 Resistance to humidity 28
7.6 Functional requirements 29
7.6.1 General 29
7.6.2 Closing function 29
7.6.3 Valve closing time 29
7.6.4 Valve opening time 30
7.7 Endurance 30
7.7.1 General 30
7.7.2 Test of endurance 30
7.7.3 Test of endurance of electrically operated valves 30

8 EMC/Electrical requirements 31
8.1 Protection against environmental influences 31
8.1.1 Assessment Criterion I 31
8.1.2 Assessment Criterion II 31
8.2 Surge immunity test 31
8.3 Electrical fast transient/burst 32
8.4 Immunity to conducted disturbances 32
8.5 Immunity to radiated fields 33
8.6 Electrostatic discharge immunity test 34
8.7 Test for immunity to power-frequency magnetic field 34
8.8 Electrical equipment 34
8.8.1 General 34
8.8.2 Heating of oil valves 34
8.8.3 Heating for valves 36
8.8.4 Burnout test for valves 36
8.8.5 Blocking of valve mechanism 36
8.9 Electrical components 37
8.9.1 Degree of protection 37
8.9.2 Switches 37
8.9.3 Plug connector 37
8.9.4 Power-saving circuit 38
8.10 Ring wave 38

9 Marking, installation and operating instructions 38
9.1 Marking 38
9.2 Installation and operating instructions 39
9.3 Warning notice 39

Annex A (normative) **Test for immunity to power-frequency magnetic fields** 40

Annex B (normative) **Specific regional requirements in European countries** 41

Annex C (normative) **Specific regional requirements in Canada and USA** 43

Annex D (normative) **Specific regional requirements in Japan** 46
