## Cleanrooms and associated controlled environments - Part 7: Separative devices (clean air hoods, gloveboxes, isolators and mini-environments)

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Requirements .....	3
5	Design and construction .....	5
6	Access devices .....	6
6.1	Use .....	6
6.2	Manual operation .....	6
6.3	Robotic handling .....	7
7	Transfer devices .....	7
7.1	Use .....	7
7.2	Selection .....	7
7.3	Fail-safe design .....	7
8	Siting and installing .....	7
9	Testing and approval .....	8
9.1	General .....	8
9.2	Glove breach test .....	8
9.3	Operating differential pressure .....	8
9.4	Leak testing .....	8
9.5	Periodic testing .....	9
Annex A (informative) Separation continuum concept .....		10
Annex B (informative) Air-handling systems and gas systems .....		13
Annex C (informative) Access devices .....		16
Annex D (informative) Examples of transfer devices .....		22
Annex E (informative) Leak testing .....		31
Annex F (informative) Parjo leak test method .....		40
Bibliography .....		51
