

DIN EN 14459:2008-02 (E)

Control functions in electronic systems for gas burners and gas burning appliances - Methods for classification and assessment

Contents		Page
Foreword		4
1	Scope	6
2	Normative references	6
3	Terms and definitions	6
4	Classification	7
5	Units of measurement and test conditions	7
6	Construction requirements	8
6.1	General	8
6.2	Mechanical parts of the control	8
6.3	Materials	8
6.4	Gas connections	8
6.5	Electronic parts of the control	8
6.6	Protection against internal faults for the purpose of functional safety	8
7	Performance	9
7.1	General	9
7.2	Leak-tightness	9
7.3	Test for leak-tightness	9
7.4	Torsion and bending	9
7.5	Torsion and bending test	9
7.6	Rated flow rate	9
7.7	Test for rated flow rate	9
7.8	Durability	9
7.9	Performance test for electronic controls	10
7.10	Long-term performance for electronic controls	10
7.11	Combined apparatus	10
7.12	Multifunctional systems	10
7.13	Data exchange	10
7.14	Specific requirements for other control functions	13
8	EMC/Electrical requirements	14
9	Marking, installation, operating instructions and declarations	14
Annex A (informative) Gas connections in common use in the various countries		15
Annex B (informative) Leak-tightness test - volumetric method		16
Annex C (informative) Leak-tightness test - pressure loss method		17
Annex D (normative) Conversion of pressure loss into leakage rate		18
Annex E (normative) Electrical/electronic component fault modes		19

Annex F (normative) Additional requirements for safety accessories and pressure accessories as defined in EU Directive 97/23/EC	20
Annex G (informative) Materials for pressurized parts	21
Annex H (normative) Requirements for controls used in DC supplied gas burners and gas burning appliances	22
Annex I (normative) Combustion product discharge function (TTB)	23
I.1 General	23
I.2 Classification	23
I.3 Construction requirements	23
I.4 Performance requirements	23
I.5 Protection against internal faults for the purpose of functional safety	24
I.6 Long term performance	24
I.7 EMC/Electrical requirements	25
I.8 Marking, installation, operating instructions and declarations	25
Annex J (normative) Reset functions	26
J.1 General	26
J.2 Classification	26
J.3 Construction requirements	26
J.4 Performance requirements	26
J.5 Protection against internal faults for the purpose of functional safety	27
J.6 Long term performance	27
J.7 EMC/Electrical requirements	27
J.8 Marking, installation, operating instructions and declarations	27
Annex K (normative) Temperature control functions (TCF)	28
K.1 General	28
K.2 Classification	29
K.3 Construction requirements	30
K.4 Performance requirements	30
K.5 Protection against internal faults for the purpose of functional safety	30
K.6 Long-term performance test	30
K.7 EMC/Electrical requirements	31
K.8 Marking, installation, operating instructions and declarations	31
Annex L (normative) Gas shut-off function	33
L.1 General	33
L.2 Classification	33
L.3 Construction requirements	34
L.4 Additional safety measures	35
L.5 Performance requirements	35
L.6 Protection against internal faults for the purpose of functional safety	35
L.7 Long-term performance test	36
L.8 EMC/Electrical requirements	36
L.9 Marking, installation, operating instructions and declarations	37
Annex M (informative) Hazards in gas appliances handled by control functions	39
Annex N (informative) Control standards for gas burners and gas burning appliances	43
Annex O (informative) Examples of new solutions	44
Bibliography	48
