Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Definitions 5

4 Sections of the keypad 6
4.1 General 6
4.2 Numeric keys 6
4.3 Placement of alphabetic characters on numeric keys 7
4.4 Command keys 8
4.4.1 Generality 8
4.4.2 Principles for the arrangement of command keys 8
4.5 Function keys 10

5 Recommendations for design 10
5.1 General design recommendations 10
5.2 Optical properties 11
5.2.1 Colour and keypad surface 11
5.2.2 Contrast between characters and keys 11
5.2.3 Contrast between keys and casing 11
5.2.4 Illuminated keys 11
5.3 Dimensions 11
5.3.1 Size of keys 11
5.3.2 The space between each key 12
5.3.3 Identification of key groups 12
5.3.4 Height of characters on the keys 12
5.4 Geometrical properties 12
5.4.1 Shape of keys 12
5.4.2 Key tops 12
5.4.3 Key material 13
5.4.4 Feedback and ease of keying 13
5.4.5 Force key activation 13
5.4.6 Number and positioning of key legends 13

6 Conformance 13

7 Labelling and packaging 13

Annex A (informative) Optional function keys that may be present 14
