Foreword v

Introduction vi

1 Scope 1

2 Terms and definitions 1

3 Test Parameters and Conditions 5
3.1 Test Platform 5
3.2 Test Platform Test Setup Procedures 5
3.2.1 Initial Platform Setup 5
3.2.2 Creation of Disk Image of Test Platform (optional) 5
3.2.3 Initial Test State 5
3.3 Printing Device System Setup 5
3.4 Printing Device Connection 6
3.5 Printing Device Condition 6
3.6 Sample Size 7
3.7 Paper 7
3.8 Maintenance 7
3.9 Test Files, Test Suites and Software Applications 7
3.10 Environment 8
3.11 Voltage 8

4 Test Method 8
4.1 Test Measurement Procedure 8
4.2 Test Method Process 12
4.2.1 Suggested Test Method Process Flow Chart 12
4.2.2 Estimating the Set Count 13
4.2.3 5% Consistency Criteria 13
4.3 Category Tests 13
4.3.1 Office Test 14
4.3.2 Advertising and Graphics Test 16
4.4 Feature Performance Test 18
4.5 Optional Special Tests 19

5 Calculations and Treatment of Data 19
5.1 Category Tests 20
5.1.1 '1 Set Test' 20
5.1.2 '1 Set + 30 Seconds Test' 20
5.1.3 '1 Set + 4 Minutes Test' 20
5.2 Feature Performance Test 21
5.2.1 '1 Set Test' 21
5.2.2 '1 Set + 30 Seconds Test' 21

6 Presentation of Results 22
6.1 Category Tests 22
6.2 Feature Performance Tests 26

Annex A (normative) Test platform system parameters that may affect digital printing productivity measurements 27

Annex B (normative) Test Suites 31

Annex C (informative) Report Presentation 36

Annex D (informative) An example of printing device and test settings to record 40

Annex E (informative) An example of a Full Detailed Report 41

Bibliography 44
