

# ISO/IEC 24723:2010-08 (E)

## Information technology - Automatic identification and data capture techniques - GS1 Composite bar code symbology specification

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Normative references .....	1
3	Terms, definitions, abbreviated terms and mathematical operators .....	2
3.1	Terms and definitions .....	2
3.2	Abbreviated terms .....	3
3.3	Mathematical operators and notational conventions .....	3
4	Symbol description .....	3
4.1	Basic characteristics .....	3
4.2	Summary of additional features .....	4
4.3	Symbol structure .....	4
4.4	Supported component combinations .....	6
5	Source data encodation into a binary string .....	6
5.1	General .....	6
5.2	Encodation Method field .....	7
5.3	Compressed data field .....	7
5.4	General-purpose data compaction field .....	11
6	Error correction .....	15
7	Linear component requirements .....	15
7.1	General .....	15
7.2	EAN/UPC linear components .....	15
7.3	GS1 DataBar family linear components .....	16
7.4	GS1-128 components .....	18
8	CC-A component requirements .....	19
8.1	CC-A -- General .....	19
8.2	Overview of the CC-A component .....	19
8.3	CC-A component structure .....	20
8.4	Symbol character structure .....	22
8.5	Base 928 compaction mode .....	24
8.6	Reference decode algorithm .....	25
9	CC-B component requirements .....	26
10	CC-C component requirements .....	27
11	Symbol dimensions .....	28
11.1	Minimum width of a module (X) .....	28
11.2	Linear component height .....	28
11.3	2D component row height (Y) .....	28
11.4	Separator pattern and vertical separator bars .....	28
11.5	Quiet zones .....	29

12	Graphical requirements .....	29
12.1	General .....	29
12.2	Vertical alignment requirements .....	29
12.3	Horizontal alignment requirements .....	29
12.4	Human readable interpretation .....	30
13	Symbol quality .....	30
13.1	Linear component .....	30
13.2	2D component .....	30
13.3	Overall composite symbol grade .....	30
13.4	Additional pass/fail criteria .....	30
14	Transmitted data .....	30
14.1	General data transmission techniques .....	30
14.2	GS1-128 Composite symbols .....	31
14.3	GS1 DataBar Composite symbols .....	31
14.4	EAN/UPC Composite symbols .....	31
14.5	Symbol separator character .....	32
14.6	2D component escape mechanism character .....	32
14.7	Linear-only transmission mode .....	32
14.8	GS1-128 emulation .....	32
14.9	Examples of transmitted data .....	33
15	Application-defined parameters .....	33
Annex A (normative) Symbology identifiers .....		34
Annex B (normative) Parsing AI element strings .....		36
Annex C (normative) 2D component escape mechanism .....		38
Annex D (informative) Printing considerations .....		39
Annex E (informative) Base 928 radix conversions .....		42
Bibliography .....		45
