

DIN CEN/TS 15480-4:2012-06 (E)

Identification card systems - European Citizen Card - Part 4: Recommendations for European Citizen Card issuance, operation and use; English version CEN/TS 15480-4:2012

Contents		Page
Foreword		5
1	Scope	6
2	Normative references	6
3	Abbreviations	6
4	General recommendations on card issuance and operational procedures	7
4.1	Initial considerations for an ECC project	7
4.2	ECC Management System and ECC lifecycle description	9
4.3	ECC Management System functional organization	11
4.4	ECC Management System Architecture	12
4.4.1	General principles	12
4.4.2	ARIS: Application Registration and Issuance Subsystem	13
4.4.3	IVAS: Identity Authentication and Verification Subsystem	14
4.5	ECC Management System Security Policy	14
4.5.1	Common principles	14
4.5.2	Establishing Detailed Security Requirements for specific ECC profiles - Data Access	15
4.5.3	Basic set of requirements for ECC Digital Signature	16
5	Recommendations with regard to the end user	17
5.1	Privacy principles for card issuance and operation	17
5.1.1	General	17
5.1.2	Protection of the data	18
5.1.3	Transparency	18
5.1.4	Consent in data collection	18
5.1.5	Preference for opt-in	18
5.1.6	Limitation of purpose	18
5.1.7	Limitation of period of retention	18
5.1.8	Adherence to performance criteria	18
5.1.9	Access rights of the data subject	18
5.1.10	Secure audit	18
5.1.11	Data transfer between jurisdictions	18
5.2	Accessibility	19
5.3	Usability	20
5.3.1	Introduction	20
5.3.2	Usability and the physical environment	20
5.3.3	Location	20
5.3.4	Ease of use	21
5.3.5	Help	21
5.3.6	Further issues	21
6	Privacy features of the ECC	21
7	ECC security evaluation	22
7.1	General	22
7.2	Digital signature services	22
7.3	Other services provided by an ECC	23

7.3.1	General	23
7.3.2	Security evaluation recommendations	23
7.3.3	Security criteria for interoperability	23
8	Card profiles for the ECC	25
8.1	General	25
8.2	User accessibility profile	26
8.3	Card profile template	26
DIN CEN/TS 15480-4 (DIN SPEC 91130-4):2012-06 CEN/TS 15480-4:2012 (E) 8.3.1 General		26
8.3.2	User accessibility profile	26
8.3.3	Card durability requirements	27
8.3.4	Card layout requirements	27
8.3.5	Applications	27
8.3.6	Selected card services	27
8.3.7	Card Info	27
8.3.8	Cross application services	27
8.3.9	References	28
8.4	Identification scheme for ECC profiles	28
8.4.1	Card profile	28
8.4.2	User accessibility profile	28
Annex A (informative) Card profiles		29
A.1	General	29
A.2	Card Profile 1: eID Application with mandatory ICAO functionality and conditional digital signature functionality	29
A.2.1	OID	29
A.2.2	General	29
A.2.3	Applications	29
A.2.4	Selected card services	30
A.2.5	Card Info	30
A.2.6	Cross application services	31
A.2.7	References	31
A.3	Card Profile 2: Dual-chip card with respective eID and ICAO Application	32
A.3.1	OID	32
A.3.2	General	32
A.3.3	Applications	32
A.3.4	Selected card services for ICAO application	32
A.3.5	References	33
A.4	Card Profile 3: eServices using a trusted Third Party	34
A.4.1	OID	34
A.4.2	General	34
A.4.3	Applications	34
A.4.4	Selected card services	34
A.4.5	References	34
A.5	Card Profile 4: Health Insurance Card	35
A.5.1	OID	35
A.5.2	General	35
A.5.3	Applications	35
A.5.4	Selected card services	35
A.5.5	References	35
A.6	Card Profile 5: Mono-application / Multi-service	36
A.6.1	OID	36
A.6.2	General	36
A.6.3	Card durability requirements	36
A.6.4	Applications	36
A.6.5	Selected card services	36
A.6.6	References	39
Annex B (informative) User accessibility profile		40

B.1	General	40
B.2	User accessibility profile according to ISO/IEC 12905:2011	40
B.2.1	OID	40
B.2.2	General	40
B.2.3	Interfaces / transport protocols	40
B.2.4	Data elements and data structures	41
B.2.5	Card services	42
B.2.6	Command set	42
B.2.7	Data structure of Global UCI	43
DIN CEN/TS 15480-4 (DIN SPEC 91130-4):2012-06 CEN/TS 15480-4:2012 (E) B.2.8 Data structure of		
	Local UCI	43
B.2.9	References	43
Annex C (informative) Reference documents		
		44
C.1	EU legal acts	44
C.2	Security documents	44
C.3	Technical standards (non-normative references)	44
C.4	Other relevant documents	45
