

# ISO/IEC TR 26927:2011-09 (E)

## Information technology - Telecommunications and information exchange between systems - Corporate telecommunication networks - Mobility for enterprise communications

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
<b>1</b>	<b>Scope .....</b>	<b>1</b>
<b>2</b>	<b>Normative references .....</b>	<b>1</b>
<b>3</b>	<b>Terms and definitions .....</b>	<b>1</b>
<b>4</b>	<b>Abbreviations .....</b>	<b>5</b>
<b>5</b>	<b>Background .....</b>	<b>7</b>
<b>6</b>	<b>Mobility types and terms .....</b>	<b>9</b>
6.1	Mobility types .....	9
6.1.1	Terminal mobility .....	9
6.1.2	User mobility .....	10
6.1.3	Session mobility .....	10
6.1.4	Service mobility .....	10
6.2	Mobility across different network infrastructures .....	10
6.2.1	Mobility across access network technologies .....	10
6.2.2	Mobility across administrative network domains .....	11
6.3	Mobility modes .....	11
6.3.1	Nomadic mode .....	11
6.3.2	Portable mode .....	11
6.3.3	Mobile mode .....	11
<b>7</b>	<b>Basic functionalities to enable mobility .....</b>	<b>12</b>
7.1	Mobility management .....	13
7.1.1	Handover of media connections and sessions .....	13
7.1.2	Mobility management support for IP-networks .....	15
7.2	Identity and access management .....	16
7.2.1	User and terminal identification .....	16
7.2.2	Authentication .....	17
7.2.3	Access management .....	18
7.3	Device/ configuration management and policy enforcement .....	18
7.4	Location management .....	19
7.5	Reachability management .....	19
7.6	Virtual Desktop Infrastructure .....	19
<b>8</b>	<b>Requirements and standardization gaps .....</b>	<b>20</b>
8.1	Nomadic deployments .....	22
8.1.1	Scenario: Hot-desking within the enterprise network (NGCN) .....	23
8.1.2	Scenario: Remote access from a public network .....	23
8.2	Portable deployments .....	24
8.2.1	Scenario: Changing location of a terminal while keeping communication sessions alive ..	24
8.2.2	Scenario: Changing terminal while keeping communication sessions alive .....	25
8.3	Mobile deployments .....	25

8.3.1	Scenario: Continuous connection across different public networks with the same access technology .....	25
8.3.2	Scenario: Continuous connection across an enterprise and a public mobile network with different access technologies .....	27
9	Summary of standardization gaps .....	27
9.1	General issues .....	28
9.2	Mobility management .....	28
9.3	Identity and access management .....	28
9.4	Device/configuration management .....	28
9.5	Reachability management and location management .....	28
	Bibliography .....	29
