Information technology - Service management - Part 2: Guidance on the application of service management systems

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
1.1	General	1
1.2	Application	2
2	Normative references	2
3	Terms and definitions	2
4	Service management system general requirements	2
4.1	Management responsibility	2
4.2	Governance of processes operated by other parties	13
4.3	Documentation management	15
4.4	Resource management	17
4.5	Establish and improve the SMS	19
5	Design and transition of new or changed services	24
5.1	General	24
5.2	Plan new or changed services	25
5.3	Design and development of new or changed services	28
5.4	Transition of new or changed services	31
5.5	Documents and records	31
5.6	Authorities and responsibilities	32
6	Service delivery processes	32
6.1	Service level management	32
6.2	Service reporting	37
6.3	Service continuity and availability management	38
6.4	Budgeting and accounting for services	43
6.5	Capacity management	46
6.6	Information security management	49
7	Relationship processes	53
7.1	Business relationship management	53
7.2	Supplier management	56
8	Resolution processes	59
8.1	Incident and service request management	59
8.2	Problem management	62
9	Control processes	65
9.1	Configuration management	65
9.2	Change management	69
9.3	Release and deployment management	72
Annex A (informative) Interfaces between processes and integration of processes with SMS		77
Bibliography		84
