4 General 4

5 Compressed data format compliance testing 6

6 Encoder compliance tests 19

7 Decoder compliance tests 20

Annex A - Procedures for determining generic encoder and decoder compliance 25

Annex B - Quantization tables for generic compliance testing of DCT-based processes 28

Annex C - Compressed test data stream structure for generic decoder compliance tests 30

Annex D - Construction of application-specific compliance tests 51

Annex E - Compliance test data for testing of greater computational accuracy 53

Annex F - Specification of supported parameter ranges 55

Annex H - Examples and guidelines 58
