ISO/IEC 10918-5:2013-05 (E)

Information technology - Digital compression and coding of continuous-tone still images: JPEG File Interchange Format (JFIF)

Contents

Page

1 Scope 1
2 Normative references 1
2.1 Identical Recommendations | International Standards 1
2.2 Paired Recommendations | International Standards equivalent in technical content 1
2.3 Additional references 1
3 Definitions 1
4 Abbreviations 1
5 Conformance 2
6 JPEG File Interchange Format (JFIF) overview 2
6.1 JPEG compression 2
6.2 Colour space 2
6.3 JFIF APP_0 marker segment 3
6.4 APP_0 marker used to specify JFIF extensions 3
6.5 Application marker segments used for application-specific information 3
7 Conversion to and from RGB 3
8 Image orientation 4
9 Spatial relationship of components 4
10 JPEG File Interchange Format (JFIF) specification 6
10.1 JFIF file syntax 6
10.2 JFIF extension APP_0 marker segment 7
10.3 JFIF extension: Thumbnail coded using JPEG encoding 7
10.4 JFIF extension: Thumbnail stored using one byte per pixel 8
10.5 JFIF extension: Thumbnail stored using three bytes per pixel 8
