

# ISO/IEC 10918-5:2013-05 (E)

## Information technology - Digital compression and coding of continuous-tone still images: JPEG File Interchange Format (JFIF)

---

<b>Contents</b>		<b>Page</b>
1	Scope .....	1
2	Normative references.....	1
2.1	Identical Recommendations   International Standards .....	1
2.2	Paired Recommendations   International Standards equivalent in technical content.....	1
2.3	Additional references .....	1
3	Definitions .....	1
4	Abbreviations .....	1
5	Conformance .....	2
6	JPEG File Interchange Format (JFIF) overview.....	2
6.1	JPEG compression .....	2
6.2	Colour space.....	2
6.3	JFIF APP <sub>0</sub> marker segment .....	3
6.4	APP <sub>0</sub> marker used to specify JFIF extensions .....	3
6.5	Application marker segments used for application-specific information .....	3
7	Conversion to and from RGB.....	3
8	Image orientation.....	4
9	Spatial relationship of components.....	4
10	JPEG File Interchange Format (JFIF) specification .....	6
10.1	JFIF file syntax.....	6
10.2	JFIF extension APP <sub>0</sub> marker segment .....	7
10.3	JFIF extension: Thumbnail coded using JPEG encoding .....	7
10.4	JFIF extension: Thumbnail stored using one byte per pixel.....	8
10.5	JFIF extension: Thumbnail stored using three bytes per pixel .....	8
	Bibliography .....	9
