ISO/IEC 9594-4:2014-03 (E)

Information technology - Open Systems Interconnection - The Directory - Part 4: Procedures for distributed operation

Contents

			Page
1	Scope		1
2	Normative references		1
	2.1	Identical Recommendations | International Standards	1
	2.2	Other references	2
3	Definitions		2
	3.1	Basic Directory definitions	2
	3.2	Directory model definitions	2
	3.3	DSA information model definitions	2
	3.4	Abstract service definitions	3
	3.5	Protocol definitions	3
	3.6	Directory replication definitions	3
	3.7	Distributed operation definitions	3
4	Abbreviations		5
5	Conventions		5
6	Overview		7
7	Distributed Directory system model		8
8	DSA interactions model		9
	8.1	Decomposition of a request	9
	8.2	Uni-chaining	9
	8.3	Multi-chaining	10
	8.4	Referral	11
	8.5	Mode determination	12
9	Overview of DSA abstract service		13
10	Information types		13
	10.1	Introduction	13
	10.2	Information types defined elsewhere	13
	10.3	Chaining arguments	14
	10.4	Chaining results	17
	10.5	Operation progress	17
	10.6	Trace information	18
	10.7	Reference type	18
	10.8	Access point information	19
	10.9	DIT bridge knowledge	20
	10.10	Exclusions	20
	10.11	Continuation reference	21
11	Bind and Unbind		22
	11.1	DSA Bind	22
	11.2	DSA Unbind	23
12	Chained operations		23
	12.1	Chained operations	23
	12.2	Chained Abandon operation	24
	12.3	Chained operations and protocol version	24

13 Chained errors 24
13.1 Introduction 24
13.2 DSA referral 24
14 Introduction 26
14.1 Scope and limits 26
14.2 Conformance 26
14.3 Conceptual model 26
14.4 Individual and cooperative operation of DSAs 26
14.5 Cooperative agreements between DSAs 27
15 Distributed Directory behaviour 27
15.1 Cooperative fulfilment of operations 27
15.2 Phases of operation processing 27
15.3 Managing Distributed Operations 28
15.4 Loop handling 29
15.5 Other considerations for distributed operation 30
15.6 Authentication of Distributed operations 31
16 The Operation Dispatcher 32
16.1 General concepts 32
16.2 Procedures of the Operation Dispatcher 37
16.3 Overview of procedures 38
17 Request Validation procedure 39
17.1 Introduction 39
17.2 Procedure parameters 40
17.3 Procedure definition 41
18 Name Resolution procedure 44
18.1 Introduction 44
18.2 Find DSE procedure parameters 44
18.3 Procedures 45
19 Operation evaluation 54
19.1 Modification procedures 55
19.2 Single entry interrogation procedure 62
19.3 Multiple entry interrogation procedure 62
20 Continuation Reference procedures 77
20.1 Chaining strategy in the presence of shadowing 77
20.2 Issuing chained subrequests to a remote DSA or LDAP server 79
20.3 Procedures' parameters 80
20.4 Definition of the procedures 80
20.5 Abandon procedures 89
20.6 DAP request to LDAP request procedure 91
20.7 LDAP result to DAP reply procedure 95
21 Results Merging procedure 97
22 Procedures for distributed authentication 99
22.1 Requester authentication 100
22.2 Results authentication 100
23 Knowledge administration overview 101
23.1 Maintenance of knowledge references 101
23.2 Requesting cross reference 102
23.3 Knowledge inconsistencies 103

24 Hierarchical operational bindings 104
24.1 Operational binding type characteristics 104
24.2 Operational binding information object Class definition 107
24.3 DSA procedures for hierarchical operational binding management 107
24.4 Procedures for operations 111
24.5 Use of application contexts 111
25 Non-specific hierarchical operational binding 111
25.1 Operational binding type characteristics 111
25.2 Operational binding information object class definition 112
25.3 DSA procedures for non-specific hierarchical operational binding management 113
25.4 Procedures for operations 114
25.5 Use of application contexts 114

Annex A – ASN.1 for Distributed Operations 115
Annex B – Specification of hierarchical and non-specific hierarchical operational binding types 119
Annex C – Example of distributed name resolution 121
Annex D – Distributed use of authentication 123
D.1 Summary 123
D.2 Distributed protection model 123
D.3 Signed chained operations 123
Annex E – Knowledge maintenance example 125
Annex F – Amendments and corrigenda 128
