Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Functional unit network description 3

5 Bitstream syntax description 5

6 Model instantiation 6

Annex A (normative) Functional unit network description 7

Annex B (informative) Examples of FU network description 13

Annex C (normative) Specification of RVC-BSDL 15

Annex D (normative) Specification of RVC-CAL language 28

Annex E (informative) FU Classification according to their dataflow model of computation of RVC-CAL 55

Annex F (informative) I/O FUs 61

Annex G (normative) Storage of RMC in MP4 file format 66

Annex H (normative) Carriage of RMC over RTP 67

Annex I (informative) Instantiation of bitstream syntax parser from bitstream syntax descriptions ... 68

Annex J (informative) Relation between codec configuration representation and multimedia middleware (M3W) 73
