

ISO/IEC 11693-3:2015-06 (E)

Identification cards - Optical memory cards - Part 3: Authentication techniques

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and Definitions	1
4	Authentication techniques	2
5	Physical characteristics of authentication elements	2
5.1	Dimensions	2
5.2	Technology combinations	2
5.3	Card construction	3
5.4	Cross section at accessible optical area	3
5.4.1	Protective layer(s)	3
5.4.2	Storage layer	3
5.4.3	Reflective layer	4
5.4.4	Substrate layer	4
5.4.5	Adhesive layer	4
5.5	Bending stiffness	4
5.6	Card warpage	4
5.7	X-rays	4
5.8	Toxicity	4
5.9	Ultraviolet light	4
5.10	Light transmittance	5
5.11	Bending properties	5
5.12	Resistance to chemicals	5
5.13	Atmospheric requirements	5
5.14	Durability	5
5.15	Dimensional stability and warpage with temperature and humidity	5
5.16	Default test environment and conditioning	5
6	Optical properties and characteristics	5
6.1	Surface roughness/scattering	5
6.2	Reflectivity of blank accessible optical area	5
6.3	Optical resolution	6
6.4	Polarization	6
