Graphic technology - Guidelines for the use of standards for print media production

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Terms and definitions	1
3 Graphic supply chain	1
3.1 Stakeholders, roles, and responsibilities	1
3.2 Use cases and product relationships	3
4 Base concepts	4
4.1 Viewing conditions	5
4.2 Colour measurements	5
4.3 Printing condition	5
4.4 Characterization	6
4.5 Grey reproduction and grey balance	6
5 Workflows	6
5.1 Design stage	6
5.1.1 RGB images	7
5.1.2 Process-dependent and process-independent design workflows	7
5.1.3 Preflighted press-ready files	8
5.1.4 Proofing systems	9
5.2 Prepress stage	10
5.3 Printing stage	12
5.4 Postpress stage	12
6 Carbon footprint calculation	13
7 Interrelation of printing standards	13
Bibliography	15
