ISO/IEC TS 19568:2015-10(E)

Programming Languages- C++ Extensions for Library Fundamentals

---

Contents

Foreword . . . **6**
1 General . . . **7**
1.1 Scope . . . 7
1.2 Normative references . . . 7
1.3 Namespaces, headers, and modifications to standard classes . . . 7
1.4 Terms and definitions . . . 8
1.5 Future plans (Informative) . . . 8
1.6 Feature-testing recommendations (Informative) . . . 8
2 Modifications to the C++ Standard Library . . . **10**
2.1 Uses-allocator construction . . . 10
3 General utilities library . . . **11**
3.1 Utility components . . . 11
3.1.1 Header <experimental/utility> synopsis . . . 11
3.1.2 Class erased_type . . . 11
3.2 Tuples . . . 11
3.2.1 Header <experimental/tuple> synopsis . . . 11
3.2.2 Calling a function with a tuple of arguments . . . 12
3.3 Metaprogramming and type traits . . . 12
3.3.1 Header <experimental/type_traits> synopsis . . . 12
3.3.2 Other type transformations . . . 15
3.4 Compile-time rational arithmetic . . . 16
3.4.1 Header <experimental/ratio> synopsis . . . 16
3.5 Time utilities . . . 17
3.5.1 Header <experimental/chrono> synopsis . . . 17
3.6 System error support . . . 17
3.6.1 Header <experimental/system_error> synopsis . . . 17
4 Function objects . . . **18**
4.1 Header <experimental/functional> synopsis . . . 18
4.2 Class template function . . . 19
4.2.1 function construct/copy/destroy . . . 21
4.2.2 function modifiers . . . 21
4.3 Searchers . . . 22
4.3.1 Class template default_searcher . . . 22
4.3.1.1 default_searcher creation functions . . . 23
4.3.2 Class template boyer_moore_searcher . . . 23
4.3.2.1 boyer_moore_searcher creation functions . . . 24
4.3.3 Class template boyer_moore_horspool_searcher . . . 24
4.3.3.1 boyer_moore_horspool_searcher creation functions . . . 25
5 Optional objects . . . **26**
5.1 In general . . . 26
5.2 Header <experimental/optional> synopsis . . . 26
5.3 optional for object types . . . 27
5.3.1 Constructors . . . 29
5.3.2 Destructor . . . 30
5.3.3 Assignment . . . 31
5.3.4 Swap . . . 33
5.3.5 Observers . . . 33
5.4 In-place construction . . . 34

5.5 No-value state indicator . . . 34
5.6 Class bad_optional_access . . . 35
5.7 Relational operators . . . 35
5.8 Comparison with nullopt . . . 35
5.9 Comparison with T . . . 36
5.10 Specialized algorithms . . . 37
5.11 Hash support . . . 37
6 Class any . . . 38
6.1 Header <experimental/any> synopsis . . . 38
6.2 Class bad_any_cast . . . 39
6.3 Class any . . . 39
6.3.1 any construct/destruct . . . 39
6.3.2 any assignments . . . 40
6.3.3 any modifiers . . . 41
6.3.4 any observers . . . 41
6.4 Non-member functions . . . 41
7 string_view . . . 43
7.1 Header <experimental/string_view> synopsis . . . 43
7.2 Class template basic_string_view . . . 44
7.3 basic_string_view constructors and assignment operators . . . 46
7.4 basic_string_view iterator support . . . 47
7.5 basic_string_view capacity . . . 47
7.6 basic_string_view element access . . . 48
7.7 basic_string_view modifiers . . . 48
7.8 basic_string_view string operations . . . 49
7.8.1 Searching basic_string_view . . . 50
7.9 basic_string_view non-member comparison functions . . . 52
7.10 Inserters and extractors . . . 53
7.11 Hash support . . . 53
8 Memory . . . 54
8.1 Header <experimental/memory> synopsis . . . 54
8.2 Shared-ownership pointers . . . 56
8.2.1 Class template shared_ptr . . . 56
8.2.1.1 shared_ptr constructors . . . 60
8.2.1.2 shared_ptr observers . . . 61
8.2.1.3 shared_ptr casts . . . 62
8.2.2 Class template weak_ptr . . . 63
8.2.2.1 weak_ptr constructors . . . 64
8.3 Type-erased allocator . . . 64
8.4 Header <experimental/memory_resource> synopsis . . . 64
8.5 Class memory_resource . . . 65
8.5.1 Class memory_resource overview . . . 65
8.5.2 memory_resource public member functions . . . 66
8.5.3 memory_resource protected virtual member functions . . . 66
8.5.4 memory_resource equality . . . 67
8.6 Class template polymorphic_allocator . . . 67
8.6.1 Class template polymorphic_allocator overview . . . 67
8.6.2 polymorphic_allocator constructors . . . 68
8.6.3 polymorphic_allocator member functions . . . 68
8.6.4 polymorphic_allocator equality . . . 70
8.7 template alias resource_adaptor . . . 70
8.7.1 resource_adaptor . . . 70

8.7.2 resource_adaptor_imp constructors . . . 71
8.7.3 resource_adaptor_imp member functions . . . 71
8.8 Access to program-wide memory_resource objects . . . 72
8.9 Pool resource classes . . . 72
8.9.1 Classes synchronized_pool_resource and unsynchronized_pool_resource . . . 72
8.9.2 pool_options data members . . . 74
8.9.3 pool resource constructors and destructors . . . 75
8.9.4 pool resource members . . . 75
8.10 Class monotonic_buffer_resource . . . 76
8.10.1 Class monotonic_buffer_resource overview . . . 76
8.10.2 monotonic_buffer_resource constructor and destructor . . . 77
8.10.3 monotonic_buffer_resource members . . . 78
8.11 Alias templates using polymorphic memory resources . . . 78
8.11.1 Header <experimental/string> synopsis . . . 78
8.11.2 Header <experimental/deque> synopsis . . . 79
8.11.3 Header <experimental/forward_list> synopsis . . . 79
8.11.4 Header <experimental/list> synopsis . . . 79
8.11.5 Header <experimental/vector> synopsis . . . 80
8.11.6 Header <experimental/map> synopsis . . . 80
8.11.7 Header <experimental/set> synopsis . . . 81
8.11.8 Header <experimental/unordered_map> synopsis . . . 81
8.11.9 Header <experimental/unordered_set> synopsis . . . 82
8.11.10 Header <experimental/regex> synopsis . . . 82
9 Futures . . . 83
9.1 Header <experimental/future> synopsis . . . 83
9.2 Class template promise . . . 83
9.3 Class template packaged_task . . . 84
10 Algorithms library . . . 86
10.1 Header <experimental/algorithm> synopsis . . . 86
10.2 Search . . . 86
10.3 Shuffling and sampling . . . 87
