

# ISO/IEC 17922:2017-09 (E)

## Information technology - Security techniques - Telebiometric authentication framework using biometric hardware security module

---

### Contents

	Page
1 Scope .....	1
2 Normative references.....	1
2.1 Identical Recommendations   International Standards .....	1
2.2 Paired Recommendations   International Standards equivalent in technical content.....	2
2.3 Additional references .....	2
3 Definitions .....	2
3.1 Terms defined in this Recommendation   International Standard.....	2
3.2 Terms defined in other International Standards .....	2
4 Abbreviations .....	3
5 Symbols and terminology.....	3
6 Biometric hardware security module for telebiometric authentication.....	3
6.1 Additional feature of BHSM to the HSM.....	3
6.2 General scenario for use of the BHSM.....	4
6.3 Telebiometric authentication using the BHSM .....	4
7 Telebiometric authentication with biometric hardware security module.....	5
7.1 General.....	5
7.2 Enrolment procedures .....	5
7.3 Telebiometric authentication processes.....	7
8 BHSM based telebiometric authentication procedures.....	9
8.1 PSID generation and ITU-T X.509 certificate .....	9
8.2 BHSM based telebiometric authentication process .....	10
8.3 ASN.1 type for the encrypted PSID .....	10
Annex A – PSID and related information.....	11
A.1 General .....	11
A.2 Encrypted PSID requesting an ITU-T X.509 certificate .....	11
A.3 ASN.1 for PSID .....	11
Annex B – Procedures for inserting PSID using PKCS #10 with modification .....	13
Bibliography .....	14
