

# ISO/IEC 30140-1:2018-02 (E)

## Information technology - Underwater acoustic sensor network (UWASN) - Part 1: Overview and requirements

---

| Contents  | Page |
|---|------|
| FOREWORD.....   | 5    |
| INTRODUCTION.....   | 6    |
| 1 Scope.....  | 7    |
| 2 Normative references.....   | 7    |
| 3 Terms and definitions.....  | 7    |
| 4 Abbreviated terms.....  | 9    |
| 5 UWASN overview and applications.....  | 9    |
| 5.1 Overview.....   | 9    |
| 5.2 Application domain of UWASN.....  | 11   |
| 6 Characteristics of UWASN in terms of the effects of propagation variability.....        | 12   |
| 6.1 Underwater acoustic communication.....  | 12   |
| 6.2 Acoustic signal strength attenuation.....   | 12   |
| 6.3 High propagation delay.....   | 12   |
| 6.4 Multipath.....  | 13   |
| 6.5 Propagation loss.....   | 13   |
| 6.6 Noise.....  | 14   |
| 7 Differences between UWASN and terrestrial sensor network.....                           | 14   |
| 7.1 Types of underwater communication technologies.....                                   | 14   |
| 7.2 Housing case.....   | 16   |
| 7.3 Costs associated with sensor nodes.....   | 16   |
| 7.4 Omni-directional and directional transducers for data transmission and reception..... | 16   |
| 7.5 Underwater object and event localization and 3D relay node.....                       | 17   |
| 7.6 Energy harvesting technology for UWASN.....   | 18   |
| 8 Specificities of UWASN and related requirements.....                                    | 18   |
| 8.1 Three structural scales of UWASN network.....   | 18   |
| 8.2 Deployments of 2D and 3D topology.....  | 21   |
| 8.2.1 General.....  | 21   |
| 8.2.2 Two-dimensional UWASN architecture.....   | 21   |
| 8.2.3 Three-dimensional UWASN architecture.....   | 22   |
| 8.3 Cross layering.....   | 24   |
| 8.4 Underwater acoustic modem.....  | 25   |
| 8.5 Doppler spread.....   | 25   |
| 8.6 Deployment considering water depths.....  | 26   |
| 8.7 Underwater wired and wireless communication.....                                      | 26   |
| 8.8 Time synchronization.....   | 27   |
| 8.9 Data transmission period for energy saving.....                                       | 28   |
| 8.10 Routing.....   | 29   |
| 8.11 Network coding.....  | 31   |
| 8.12 Data compression.....  | 31   |
| 8.13 Delay and disruption tolerant network (DTN).....                                     | 31   |

|                   |  |    |
|-------------------|--|----|
| 9                 | UWASN further general requirements .....   | 32 |
| 9.1               | General.....   | 32 |
| 9.2               | General requirements for UWASN – Cross layering .....                                    | 32 |
| 9.3               | General requirements for the UWASN – Communication technology .....                      | 32 |
| 9.4               | General requirements for the UWASN – Other system requirements .....                     | 33 |
| Annex A           | (informative) Selected applications of UWASN.....  | 34 |
| A.1               | Environmental monitoring – Chemical and biological changes.....                          | 34 |
| A.1.1             | Description .....  | 34 |
| A.1.2             | Physical entities .....  | 35 |
| A.1.3             | Normal flow .....  | 35 |
| A.1.4             | Conditions .....   | 35 |
| A.2               | Detection of pipeline leakages .....   | 35 |
| A.2.1             | Description .....  | 35 |
| A.2.2             | Physical entities .....  | 36 |
| A.2.3             | Normal flow .....  | 36 |
| A.2.4             | Conditions .....   | 37 |
| A.3               | Exploration of natural resources.....  | 37 |
| A.3.1             | Description .....  | 37 |
| A.3.2             | Physical entities .....  | 38 |
| A.3.3             | Normal flow .....  | 38 |
| A.3.4             | Conditions .....   | 39 |
| A.4               | Fish farming.....  | 39 |
| A.4.1             | Description .....  | 39 |
| A.4.2             | Physical entities .....  | 40 |
| A.4.3             | Normal flow .....  | 40 |
| A.4.4             | Conditions .....   | 40 |
| A.5               | Harbour security .....   | 40 |
| A.5.1             | Description .....  | 40 |
| A.5.2             | Physical entities .....  | 41 |
| A.5.3             | Normal flow .....  | 41 |
| A.5.4             | Conditions .....   | 42 |
