Information technology - Security techniques - Identity proofing

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms, definitions and abbreviated terms	1
4	Identity proofing concepts	3
4.1	Identity proofing	3
4.2	Enrolment	3
4.3	Proofing information	3
4.4	Evidence of identity	4
4.4.1	General	4
4.4.2	Authoritative evidence	5
4.4.3	Corroborative evidence	5
4.5	Actors	5
4.5.1	General	5
4.5.2	Subject	5
4.5.3	Proofing party	5
4.5.4	Verifier	5
4.6	Evidence of identity strength considerations	6
4.7	Levels of identity proofing	6
4.8	One identity per subject	7
4.9	Deceased subjects	8
5	Requirements for identity proofing	8
5.1	Identity proofing policy	8
5.2	Determining the level of identity proofing	8
5.3	Identity is unique	9
5.4	Existence of identity in evidence	9
5.5	Identity is bound to a subject	10
Annex A (informative) Evidence of identity and binding examples		11
Annex B (informative) Contra-indications and fraud detection		17
