ISO/IEC/IEEE 26512:2018-06 (E)

Systems and software engineering - Requirements for acquirers and suppliers of information for users

Contents

Page

1 Scope 1
2 Normative references 2
3 Terms and definitions 2
4 Conformance 7
4.1 General 7
4.2 Definition of conformance 7
4.3 Conformance situations 7
5 Information for userswithin a system/software life cycle 8
6 Agreementprocesses within a system/software life cycle 10
6.1 General 10
6.2 Information for users acquisition process 11
6.2.1 Purpose of the acquisition process 11
6.2.2 Outcomes of the acquisition process 11
6.3 Information for users acquisition activities and tasks 11
6.3.1 General 11
6.3.2 Acquisition preparation 11
6.3.3 Supplier selection 13
6.3.4 Negotiating and agreeing to the contract 13
6.3.5 Contract management and monitoring 13
6.3.6 Acquirer acceptance 14
6.3.7 Acquisition closure 14
6.4 Information for users supply process 14
6.4.1 Purpose of the supply process 14
6.4.2 Outcomes of the supply process 14
6.5 Information for users supply activities and tasks 14
6.5.1 General 14
6.5.2 Opportunity identification and evaluation 15
6.5.3 Proposal preparation 15
6.5.4 Negotiating and agreeing to the contract 15
6.5.5 Contract performance 15
6.5.6 Delivery 17
7 Defining information for users requirements and constraints 17
7.1 Aspects of requirements and constraints 17
7.2 Schedule constraints 17
7.3 Usability requirements 18
7.4 Product modification requirements 18
7.5 Localization and translation requirements 19
7.6 Legal requirements 19
7.7 Safety requirements 20
7.8 Security requirements 20
7.9 Standards and conventions 20
7.10 Quality management requirements 20
8 Specification of the information for users 21

9 Statement of work 21

10 Request for proposal 22
10.1 Request for proposal topics 22
10.2 Project objectives 23
10.3 Requirements for supporting processes 23
10.4 Supplier capabilities and experience 23
10.5 Instructions for bidders 23
10.6 List of deliverable information for users products or services 23
10.7 Confidentiality and intellectual property 24
10.8 Proposal evaluation criteria 24

11 Information for users proposal 24
11.1 Information for users proposal contents 24
11.2 Understanding of requirements 25
11.3 Scope of the project 26
11.4 Processes 26
11.5 Experience, capabilities, and available resources 26
11.6 Schedule 27
11.7 Deliverables 27
11.8 Price proposal 27

Annex A (informative) Requirements clauses and checklist for acquirers 28

Annex B (informative) Requirements clauses and checklist for suppliers 31
