ISO/IEC 18013-1:2018 (E)

Information technology — Personal identification — ISO-compliant driving licence — Part 1: Physical characteristics and basic data set

Contents

Foreword

0 Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Conformance

5 Human-readable data elements on IDL

- 5.1 Visual presence
- 5.2 Data element tables
- 5.3 Mandatory data elements for international interchange
- 5.4 Optional data elements for international interchange

Annex A (normative) Card design

- A.1 Introduction
- A.2 Dimensions and character set
- A.3 Functions
- A.4 Common recognition
- A.5 Layout
- A.6 Contents of the zones
- A.6.1 Data element placement
- A.6.1.1 Zone I
- A.6.1.2 Zone II
- A.6.1.3 Zone III
- A.6.1.4 Zone IV
- A.6.1.5 Zone V
- A.6.2 Production of images
- A.6.2.1 Portrait
- A.6.2.2 Signature or usual mark
- A.6.2.3 Finger print
- A.7 Security
- A.8 Figures

Annex B (normative) Vehicle categories and pictograph descriptions

- B.1 Introduction
- B.2 Vehicle categories
- B.2.1 Mandatory vehicle categories
- B.2.2 Optional vehicle subcategories
- B.2.3 Vehicle category supplementation
- B.3 Restrictions

Annex C (normative) Document security and security features

- C.1 Introduction
- C.2 Basic principles
- C.2.1 Introduction
- C.2.2 Security classification
- C.2.3 Document related fraud
- C.3 Security feature requirements

C.3.1 General requirements
C.3.2 Security features per group
C.3.2.1 Card-body design
C.3.2.2 Security design, resistant to reproduction
C.3.2.3 Security inks / pigments
C.3.2.4 Protecting personalised data
C.4 Document security management
C.5 Main threats to the security of an IDL (informative)
C.5.1 Introduction
C.5.2 Counterfeiting threats
C.5.2.1 Document design attacks
C.5.2.1.1 Re-creating the basic document look and feel including such as the background pattern, flags and other fixed motives
C.5.2.1.2 Adding personalization information
C.5.2.2 Substitute material/Personalization attacks
C.5.2.2.1 Substitute materials
C.5.2.2.2 Substitute printing methods
C.5.2.2.3 Alternative finishing
C.5.3 Falsification threats
C.5.3.1 Falsification by physical modification of existing valid documents
C.5.3.1.1 Text attacks
C.5.3.1.2 Image attacks
C.5.3.1.3 Delaminating attacks
C.5.3.2 Falsification by recycling
C.5.3.2.1 Extraction of genuine security features
C.5.3.2.2 Use of recycled genuine security features in a new falsification
C.5.3.3 Falsification of logical data
C.5.3.3.1 Logical data denial of service attack
C.5.3.3.2 Logical data substitution attack
C.5.4 Misuse attacks
C.5.4.1 Misuse of genuine valid documents
C.5.4.1.1 Identity theft
C.5.4.2 Misuse of genuine invalid documents
C.5.4.2.1 Invalid documents
C.5.4.2.2 Cloned documents
C.5.4.3 Misuse by theft of original blank documents
C.5.4.3.1 Theft of blank cards at the card production site
C.5.4.3.2 Theft of blank cards during the transportation process
C.5.4.3.3 Blank cards are removed from the personalisation site
C.5.4.3.4 Stolen blank documents are personalised
C.5.4.4 Misuse through the fraudulent issue of genuine documents
C.5.4.4.1 An attacker makes a fraudulent application for an IDL document
C.5.4.4.2 Employee at the issuing authority makes unauthorised requests for IDL documents
C.6 Glossary

Annex D (informative) Procedures for securing the issuance and use of IDLs

D.1 Identity confirmation and licence holder verification
D.2 Protection against theft and abuse of genuine card blanks or IDL components
D.3 Internal security of the issuance process
D.4 Quality control

Annex E (informative) Card durability

E.1 Introduction
E.2 Tests

Annex F (informative) Distinguishing signs of countries

Annex G (normative) IDL booklet

G.1 Introduction
G.2 The need for an IDL booklet
G.2.1 Booklet with some personalisation
G.2.2 Booklet with no personalisation
G.3 Common recognition of booklet
G.4 Dimensions and format

G.5 Layout
G.5.1 Cover
G.5.1.1 Front
G.5.1.2 Back
G.5.2 Introduction
G.5.2.1 English
G.5.2.2 French
G.5.3 Recognition of the IDL
G.5.3.1 English
G.5.3.2 French
G.5.4 Multi-language descriptions
G.6 Security
G.7 Availability
G.8 Figures of pages of booklet

Page count: 81
