ISO/IEC 21964-3:2018 (E)

Information technology — Destruction of data carriers — Part 3: Process of destruction of data carriers

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Processing

3.1 General
3.2 Process definition
3.3 Determination of the risk structure
3.4 Process execution
3.5 Inspection and testing
3.5.1 Requirements to the data controller
3.5.2 Process reliability
3.5.3 Requirements to certificates of service providers

4 Process criteria

4.1 General
4.2 Criteria for all varieties of data carrier destruction
4.3 Criteria for variety 1
4.4 Criteria for variety 2
4.5 Criteria for variety 3
4.6 Criteria for the infrastructure of the service provider for variety 3
4.7 Take-over record
4.8 Destruction record
