ISO/IEC 7810:2019-12 (E)

Identification cards - Physical characteristics

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Conformance 3

5 Dimensions of card 3
5.1 General 3
5.2 Card dimensions and tolerances 3
5.3 Card edges 5

6 Card construction 5

7 Card materials 5

8 Card characteristics 5
8.1 Bending stiffness, ID-1 size card only 5
8.2 Toxicity 5
8.3 Resistance to chemicals 5
8.4 Card stability with temperature and humidity 6
8.5 Light 6
8.6 Durability 6
8.7 Peel strength 6
8.8 Adhesion or blocking 6
8.9 Opacity, ID-1 size card only 7
8.10 Overall card warpage, ID-1 size card only 7
8.11 Resistance to heat, ID-1 size card only 7
8.12 Surface distortions, raised and depressed areas 8
8.13 Contamination and interaction of card components 8
8.14 Dynamic bending stress, ID-1 size card only 8

9 Criteria for cards containing IC's 8
9.1 General 8
9.2 X-rays 8
9.3 Static electricity 9
9.3.1 IC cards with contacts 9
9.3.2 Contactless IC cards 9
9.4 Operating temperature 9
9.5 Mechanical strength 9
9.5.1 General 9
9.5.2 Mechanical strength of cards with contacts (3 wheel test, ID-1 size card only) 9
9.5.3 Mechanical strength of contacts 9
9.6 Electrical surface resistance of contacts 9
9.7 IC and magnetic stripe electromagnetic interference 9
9.8 Resistance to chemicals 9
9.9 Antenna for contactless interface (ID-1 size card only) 10

9.10 Resistance to temperature and humidity 10
9.11 Dynamic torsion stress, ID-1 size card only 10

10 Card interface devices 10
10.1 General 10
10.2 ESD robustness 10

Annex A (informative) ID-000 size card as part of ID-1 size card 11
