

ISO/IEC 7810:2019-12 (E)

Identification cards - Physical characteristics

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Conformance	3
5	Dimensions of card	3
5.1	General	3
5.2	Card dimensions and tolerances	3
5.3	Card edges	5
6	Card construction	5
7	Card materials	5
8	Card characteristics	5
8.1	Bending stiffness, ID-1 size card only	5
8.2	Toxicity	5
8.3	Resistance to chemicals	5
8.4	Card stability with temperature and humidity	6
8.5	Light	6
8.6	Durability	6
8.7	Peel strength	6
8.8	Adhesion or blocking	6
8.9	Opacity, ID-1 size card only	7
8.10	Overall card warpage, ID-1 size card only	7
8.11	Resistance to heat, ID-1 size card only	7
8.12	Surface distortions, raised and depressed areas	8
8.13	Contamination and interaction of card components	8
8.14	Dynamic bending stress, ID-1 size card only	8
9	Criteria for cards containing IC's	8
9.1	General	8
9.2	X-rays	8
9.3	Static electricity	9
9.3.1	IC cards with contacts	9
9.3.2	Contactless IC cards	9
9.4	Operating temperature	9
9.5	Mechanical strength	9
9.5.1	General	9
9.5.2	Mechanical strength of cards with contacts (3 wheel test, ID-1 size card only)	9
9.5.3	Mechanical strength of contacts	9
9.6	Electrical surface resistance of contacts	9
9.7	IC and magnetic stripe electromagnetic interference	9
9.8	Resistance to chemicals	9
9.9	Antenna for contactless interface (ID-1 size card only)	10

9.10	Resistance to temperature and humidity	10
9.11	Dynamic torsion stress, ID-1 size card only	10
10	Card interface devices	10
10.1	General	10
10.2	ESD robustness	10
Annex A (informative) ID-000 size card as part of ID-1 size card		11
