ISO/IEC TR 23188:2020-02 (E)

Information technology - Cloud computing - Edge computing landscape

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1
3.1 Edge computing 2
3.2 IoT terms 2
3.3 Real time 3

4 Symbols and abbreviated terms 4

5 Overview of edge computing 5
5.1 General 5
5.2 Concepts of edge computing 6
5.3 Architectural foundations of edge computing 6
5.4 The relationship of edge computing to cloud computing 8
5.5 The relationship of edge computing to IoT 11

6 Networking and edge computing 12
6.1 General 12
6.1.1 Proximity networks 13
6.1.2 Access networks 13
6.1.3 Services networks 13
6.1.4 User networks 13
6.2 Virtual networks 14

7 Hardware considerations for edge computing 15
7.1 General 15
7.2 Hardware capabilities 15

8 Software technologies for edge computing 16
8.1 General 16
8.2 Software classifications 16
8.2.1 Firmware 16
8.2.2 Platform software 17
8.2.3 Services 17
8.2.4 Applications 17
8.3 Significant software technologies 17
8.3.1 General 17
8.3.2 Virtual machines 18
8.3.3 Containers 18
8.3.4 Serverless computing 19
8.3.5 Microservices 19

9 Deployment models and service capabilities types and service categories for edge computing 19
9.1 Deployment models 19
9.2 Service model capabilities types 20

9.3 Service categories 20

10 Data in edge computing 21
10.1 General 21
10.2 Data flow 21
10.3 Data storage 23
10.4 Data processing 23

11 Management of edge computing 24
11.1 Management and orchestration fundamentals 24

11.2 Management plane, control plane and data plane 26
11.3 Cloud-based management and control of edge tier nodes and device tier devices 28
11.3.1 General 28
11.3.2 Control of services from a device 28
11.3.3 Management of devices and edge nodes from a cloud service 29
11.4 Orchestration and maintenance 29
11.5 Management of data, rights and resources 30
11.6 Security and privacy management 30

12 Virtual placement 30

13 Security and privacy in edge computing 31
13.1 General 31
13.2 Applying foundational security principles 32
13.3 Secure nodes and devices 32
13.4 Connectivity and network security 33
13.5 Organization of security elements 34
13.6 Privacy and personally identifiable information in edge computing 36

14 Real time in edge computing 37
14.1 Overview 37
14.2 Factors influencing real time system design 38
14.3 Design approaches for real time edge computing 41

15 Edge computing and mobile devices 41

Bibliography 43
