

ISO/IEC TR 23188:2020-02 (E)

Information technology - Cloud computing - Edge computing landscape

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
3.1	Edge computing	2
3.2	IoT terms	2
3.3	Real time	3
4	Symbols and abbreviated terms	4
5	Overview of edge computing	5
5.1	General	5
5.2	Concepts of edge computing	6
5.3	Architectural foundations of edge computing	6
5.4	The relationship of edge computing to cloud computing	8
5.5	The relationship of edge computing to IoT	11
6	Networking and edge computing	12
6.1	General	12
6.1.1	Proximity networks	13
6.1.2	Access networks	13
6.1.3	Services networks	13
6.1.4	User networks	13
6.2	Virtual networks	14
7	Hardware considerations for edge computing	15
7.1	General	15
7.2	Hardware capabilities	15
8	Software technologies for edge computing	16
8.1	General	16
8.2	Software classifications	16
8.2.1	Firmware	16
8.2.2	Platform software	17
8.2.3	Services	17
8.2.4	Applications	17
8.3	Significant software technologies	17
8.3.1	General	17
8.3.2	Virtual machines	18
8.3.3	Containers	18
8.3.4	Serverless computing	19
8.3.5	Microservices	19
9	Deployment models and service capabilities types and service categories for edge computing	19
9.1	Deployment models	19
9.2	Service model capabilities types	20

9.3	Service categories	20
10	Data in edge computing	21
10.1	General	21
10.2	Data flow	21
10.3	Data storage	23
10.4	Data processing	23
11	Management of edge computing	24
11.1	Management and orchestration fundamentals	24
11.2	Management plane, control plane and data plane	26
11.3	Cloud-based management and control of edge tier nodes and device tier devices	28
11.3.1	General	28
11.3.2	Control of services from a device	28
11.3.3	Management of devices and edge nodes from a cloud service	29
11.4	Orchestration and maintenance	29
11.5	Management of data, rights and resources	30
11.6	Security and privacy management	30
12	Virtual placement	30
13	Security and privacy in edge computing	31
13.1	General	31
13.2	Applying foundational security principles	32
13.3	Secure nodes and devices	32
13.4	Connectivity and network security	33
13.5	Organization of security elements	34
13.6	Privacy and personally identifiable information in edge computing	36
14	Real time in edge computing	37
14.1	Overview	37
14.2	Factors influencing real time system design	38
14.3	Design approaches for real time edge computing	41
15	Edge computing and mobile devices	41
	Bibliography	43
