ISO/IEC 15938-6:2020 (E)

Information technology — Multimedia content description interface — Part 6: Reference software

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Abbreviated terms

5 Copyright disclaimer for software modules

6 XM software architecture

- 6.1 Block diagrams
- 6.2 Block descriptions
- 6.2.1 General
- 6.2.2 Media database
- 6.2.3 AV decoders
- 6.2.4 Media data
- 6.2.5 Extraction tools
- 6.2.6 Descriptors (Ds) and description schemes (DSs)
- 6.2.7 Coding schemes (CSs)
- 6.2.8 Search and matching tools
- 6.2.9 Media transcoders
- 6.2.10 Applications
- 6.2.11 Interface structure

7 Systems reference software (BiM)

- 7.1 General
- 7.2 BiM reference software
- 7.2.1 General
- 7.2.2 Package content
- 7.2.3 Installation and execution
- 7.2.4 Software overview
- 7.2.4.1 XML schema parsing and validation
- 7.2.4.2 Binary encoding
- 7.2.4.3 Binary decoding
- 7.2.5 Main packages
- 7.3 Access unit navigator
- 7.3.1 General
- 7.3.2 Textual access unit encoder module
- 7.3.3 Textual access unit decoder module

8 Description definition language (DDL) reference software

9 Video reference software

10 Audio reference software

11 Multimedia description scheme reference software

12 Compilation of the reference software

13 Usage information for individual descriptors and description schemes
