ISO/IEC TR 23187:2020 (E)

Information technology — Cloud computing — Interacting with cloud service partners (CSNs)

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Symbols and abbreviated terms

5 Structure of this document

6 Relationship of roles and activities, and managing risks in cloud services

6.1 Overview
6.2 Scope in relation to the cloud computing reference architecture (ISO/IEC 17789)

7 Overview of roles, sub-roles, and responsibilities of cloud service partners (CSNs)

7.1 Relationship between roles, activities and responsibilities
7.2 Roles and sub-roles
7.3 Cloud service provider (CSP)
7.4 Cloud service customer (CSC) and Cloud service user (CSU)
7.4.1 Cloud service customer (CSC)
7.4.2 Cloud service user (CSU)
7.5 Cloud service partner (CSN)
7.5.1 Overview
7.5.2 Cloud auditor
7.5.3 Cloud service broker
7.5.4 Cloud service developer
7.6 Relationships between CSNs, and other roles and sub-roles
7.6.1 Differences between CSNs, CSCs and CSPs
7.6.2 CSNs and inter-cloud providers

8 Overview and description of types and interactions between cloud service partners (CSNs) with CSPs, CSCs, and CSNs

8.1 General
8.2 Interaction between CSNs and CSCs
8.2.1 Overview
8.2.2 CSN managing CSC's cloud adoption
8.3 Interaction between CSNs and CSPs
8.4 Interaction between CSNs and other CSNs
8.4.1 Description of types of CSNs interactions
8.4.2 CSN – interaction and responsibilities

9 Elements of cloud service agreements (CSAs) relating to CSN interactions

9.1 General principles
9.2 Role, relationship and agreement
9.2.1 Overview
9.2.2 Cloud migrations and cloud deployment models
9.3 Cloud service level agreement (Cloud SLA)
9.3.1 Overview
9.3.2 SLA terminology

9.3.3 Roles and responsibilities
9.3.3.1 General
9.3.3.2 CSCs interacting with CSNs
9.3.3.3 CSPs interacting with CSNs

10 Examples of scenarios illustrating CSN activities

10.1 Introduction
10.2 Reselling of cloud service
10.3 Cloud service exchange
10.4 Management of cloud service
10.4.1 CSN – CSC: Managing the CSC use of cloud service
10.4.2 CSN – CSP: partnership with a CSP to deliver cloud service
10.5 Cloud data management service
10.6 Shared services management

11 Issues on roles and sub-roles (as illustrated in examples)

11.1 General
11.2 Cloud computing environment
11.3 CSN roles and sub-roles
11.3.1 Overview
11.3.2 Responsibilities and risks
11.4 Cloud service activity and functional components
11.5 Supplier relationship in cloud services

12 Available standards
