

# ISO/IEC 30143:2020-06 (E)

## Information technology - Underwater acoustic sensor network (UWASN) - Application profiles

---

<b>Contents</b>	<b>Page</b>
FOREWORD.....	5
INTRODUCTION.....	6
1 Scope.....	7
2 Normative references .....	7
3 Terms and definitions .....	7
4 Abbreviated terms .....	8
5 Overview of UWASN application profiles .....	8
5.1 Introduction to application profiles.....	8
5.2 Benefits of application profiles .....	8
6 Design process of UWASN application profiles .....	8
6.1 General.....	8
6.2 Criteria for the design process of UWASN application profiles .....	9
6.3 Design process steps for UWASN application profiles .....	9
7 Requirements for the design process of UWASN application profiles .....	9
7.1 General.....	9
7.2 User requirements of UWASN application profiles.....	10
7.3 General requirements of UWASN application profiles.....	10
7.4 Functional requirements of UWASN application profiles.....	11
7.5 Constrained requirements of UWASN application profiles .....	12
7.5.1 General .....	12
7.5.2 Connectivity.....	13
7.5.3 UWA-GW.....	13
7.5.4 UWA-DTN-GW.....	13
7.5.5 Housing case.....	13
7.5.6 Fouling cleaner.....	13
7.5.7 Node deployment.....	13
7.5.8 Battery.....	14
8 Modelling techniques for designing UWASN application profiles .....	14
8.1 General.....	14
8.2 Use case model .....	14
8.2.1 General .....	14
8.2.2 Elements of use case diagram .....	14
8.2.3 Relationships.....	15
8.3 Sequence diagram model.....	16
8.3.1 General .....	16
8.3.2 Elements of sequence diagram .....	16
8.4 Class diagram model .....	18
8.4.1 General .....	18
8.4.2 Elements of class diagram.....	18

9	Guidelines for the implementation of UWASN application profiles .....	19
9.1	Layered design approach for developing UWASN application profiles .....	19
9.2	Specific architecture for implementing UWASN application profiles .....	20
9.3	Framework for implementing UWASN application profiles .....	21
9.3.1	User interface .....	21
9.3.2	System calculation unit .....	22
9.3.3	Surface devices .....	22
9.3.4	Sensor node .....	22
9.4	Functional operations for implementing UWASN application profiles .....	23
10	Specialized maintenance for UWASN application profiles .....	24
Annex A (informative)	Application profile example.....	26
A.1	Fish farming.....	26
A.1.1	General .....	26
A.1.2	Guidelines for designing UWASN fish farming application.....	26
A.1.3	Requirements for the design process of UWASN fish farming application .....	27
A.1.4	Modelling techniques for designing UWASN fish farming application .....	30
A.1.5	Guidelines for the implementation process of UWASN fish farming application .....	32
	Bibliography.....	38
	Figure 1 – Actor representation examples .....	14
	Figure 2 – Use case representation examples.....	15
	Figure 3 – System boundary representation example .....	15
	Figure 4 – Use case model for UWASN application profiles .....	16
	Figure 5 – Object symbol in a sequence diagram .....	16
	Figure 6 – Execution box symbol in a sequence diagram .....	17
	Figure 7 – Lifeline representation in a sequence diagram .....	17
	Figure 8 – Sequence diagram modelling for UWASN application profiles .....	17
	Figure 9 – Representation of different sections in class diagram.....	18
	Figure 10 – Class diagram modelling for UWASN application profiles .....	19
	Figure 11 – Layer design approach.....	20
	Figure 12 – UWASN specific architectural model .....	21
	Figure 13 – Framework of UWASN application profiles .....	23
	Figure 14 – Operation design approach .....	24
	Figure A.1 – Use case model for fish farming application .....	31
	Figure A.2 – Sequence diagram model for fish farming application .....	32
	Figure A.3 – Layered design approach of fish farming application.....	33
	Figure A.4 – Specific fish farming architecture .....	34
	Figure A.5 – Framework for fish farming application.....	35
	Figure A.6 – Operation design process for fish farming application .....	36
	Table 1 – Steps for the design process of UWASN application profiles .....	9
	Table 2 – User requirements of UWASN application profiles .....	10
	Table 3 – General requirements for UWASN application profiles.....	10
	Table 4 – Functional requirements for UWASN application profiles .....	11

Table 5 – Constrained requirements for UWASN application profiles .....	12
Table 6 – Relationship and symbols of use case diagram .....	15
Table 7 – Components for implementing UWASN application profiles .....	23
Table 8 – Operation process of UWASN application profiles .....	24
Table 9 – Key factors for monitoring UWASN application profiles.....	25
Table 10 – Components used for the maintenance of UWASN application profiles .....	25
Table A.1 – Steps for designing UWASN fish farming application.....	27
Table A.2 – User requirements for the design process of UWASN fish farming application .....	27
Table A.3 – General requirements for the design process of UWASN fish farming application .....	28
Table A.4 – Functional requirements for the design process of UWASN fish farming application .....	29
Table A.5 – Constrained requirements for the design process of UWASN fish farming application .....	30
Table A.6 – Operation design process of UWASN fish farming application .....	36
Table A.7 – Key components to monitor in fish farming application .....	37
Table A.8 – Components used for the maintenance of UWASN fish farming application .....	37
