ISO/IEC 21794-1:2020 (E)

Information technology — Plenoptic image coding system (JPEG Pleno) — Part 1: Framework

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Abbreviated terms

5 Conventions

5.1 Conformance language
5.2 Naming conventions for numerical values

6 Framework definition

7 File format architecture

8 Organization of the document

Annex A (normative) JPEG Pleno file format (JPL)

A.1 General
A.2 Specification of the JPL file format
A.2.1 General
A.2.2 File identification
A.2.3 File organization
A.2.4 Metadata
A.2.5 Conformance with the file format
A.3 Concept of boxes
A.3.1 Key to graphical descriptions
A.3.2 Box definition
A.4 Defined boxes
A.5 Defined boxes
A.5.1 JPEG Pleno Signature box
A.5.2 File Type box
A.5.3 JPEG Pleno Thumbnail box (superbox)
A.5.4 Image Header box
A.5.5 JPEG Pleno Light Field box (superbox)
A.5.6 JPEG Pleno Point Cloud box (superbox)
A.5.7 JPEG Pleno Hologram box (superbox)
A.5.8 XML box
A.5.8.1 General
A.5.8.2 JPEG Pleno file catalogue
A.6 Dealing with unknown boxes

Annex B (informative) JPEG Pleno reference grid system

Annex C (informative) Conceptual example
