Seite

European foreword 3
Introduction 4
1 Scope 5
2 Normative references 5
3 Terms and definitions 6
4 Symbols and abbreviations 6
5 Group access control processes and technologies 6
5.1 Architecture 6
5.1.1 General 6
5.1.2 Biometric process and background integration 7
5.1.3 Segregated two steps access control 9
5.2 Integration of Access Control into other management systems 11
5.3 Applicable biometric technologies 11
5.3.1 General 11
5.3.2 Segregated two steps access control 12
5.4 Interoperability issues 12
5.5 Storage of reference data 12
5.5.1 General 12
5.5.2 Segregated two steps access control 13
5.6 Biometric performance and error rates 13
6 Accessibility, usability, and guidance 14
6.1 General 14
6.2 Accessibility 14
6.3 Usability 14
6.4 Guidance 14
6.5 Segregated two steps access control 15
7 Privacy and security considerations 15
7.1 Privacy 15
7.1.1 General 15
7.1.2 Segregated two steps access control 15
7.2 Presentation attack detection 16
7.3 Group internal linkage 16
Annex A (informative) Example for need of group internal linkage: Human being trafficking 17
A.1 Background 17
A.2 Detection of illegal activities in a two step travel application 17
Bibliography 18
