Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Symbols and abbreviated terms 3

5 Framework for deletion 3
5.1 General 3
5.2 Constraints 4
5.3 Clusters of PII 4
5.4 Retention period and regular deletion period 5
5.4.1 Retention period 5
5.4.2 Regular deletion period 5
5.4.3 Allocation of clusters of PII 6
5.5 Archives and backup copies 6
5.6 Standard deletion periods, starting points, deletion rules and deletion classes 7
5.7 Special situations 7
5.8 Documentation of policies and procedures 8

6 Clusters of PII 8
6.1 General 8
6.2 Identification 9
6.3 Documentation 10

7 Specification of deletion periods 10
7.1 Standard and regular deletion periods 10
7.2 Regular deletion period specifications 11
7.3 Standard deletion period identification 11
7.4 Deletion period specifications for special situations 12
7.4.1 General 12
7.4.2 Modification of data objects 12
7.4.3 Need to extend period of active use 13
7.4.4 Suspension of the deletion 13
7.4.5 Backup copies 13

8 Deletion classes 14
8.1 Abstract starting points -- abstract deletion rules 14
8.2 Matrix of deletion classes 15
8.3 Allocation of deletion classes and definition of deletion rules 16

9 Requirements for implementation 16
9.1 General 16
9.2 Conditions for starting points outside IT systems 18
9.3 Requirements for implementation for organization-wide aspects 18
9.3.1 General 18

9.3.2 Backup 18
9.3.3 Logs 19
9.3.4 Transmission systems 19
9.3.5 Repair, dismantling and disposal of systems and components 19
9.3.6 Everyday business life 19
9.4 Requirements for implementation for individual IT systems 20
9.5 Deletion in regular manual processes 21
9.6 Requirements for implementation for PII processor 21
9.7 Control deletion in special cases 21
9.7.1 Exception management 21
9.7.2 Further sets of PII 22

10 Responsibilities 22
10.1 General 22
10.2 Documentation 23
10.3 Implementation 24

Bibliography 25
