

# ISO/IEC/IEEE 32675:2022-08 (E)

## Information technology - DevOps - Building reliable and secure systems including application build, package and deployment

---

| <b>Contents</b>   | <b>Page</b> |
|---|-------------|
| 1. Overview .....   | 9           |
| 1.1 Scope .....   | 9           |
| 1.2 Purpose .....   | 10          |
| 1.3 Word usage .....  | 10          |
| 2. Normative references.....                                | 11          |
| 3. Definitions, acronyms, and abbreviations .....           | 11          |
| 3.1 Definitions .....                                       | 11          |
| 3.2 Acronyms and abbreviations .....                        | 14          |
| 4. Conformance .....  | 16          |
| 4.1 Compliance criteria.....                                | 16          |
| 4.2 Full conformance to outcomes.....                       | 17          |
| 4.3 Full conformance to tasks.....                          | 17          |
| 4.4 Tailored conformance.....                               | 17          |
| 5. DevOps concepts .....                                    | 17          |
| 5.1 Value of DevOps .....                                   | 17          |
| 5.2 DevOps principles .....                                 | 18          |
| 5.3 DevOps and organizational culture.....                  | 20          |
| 5.4 DevOps and life cycle processes .....                   | 23          |
| 6. Relation of software life cycle processes to DevOps..... | 23          |
| 6.1 Agreement processes .....                               | 23          |
| 6.2 Organizational Project-Enabling processes .....         | 27          |
| 6.3 Technical Management processes .....                    | 38          |
| 6.4 Technical processes .....                               | 61          |
| Annex A (informative) Bibliography .....                    | 88          |
