|---------------------------------|--|-------------|
| Foreword .....                  |  | iv          |
| Introduction .....              |  | vi          |
| 1                               | Scope .....  | 1           |
| 2                               | Normative references .....                                 | 1           |
| 3                               | Terms, definitions and abbreviated terms .....             | 1           |
| 3.1                             | Terms and definitions .....                                | 1           |
| 3.2                             | Abbreviated terms .....                                    | 2           |
| 4                               | Use of assurance cases .....                               | 2           |
| 4.1                             | Overview .....   | 2           |
| 4.2                             | Application of this document .....                         | 4           |
| 5                               | Structure of assurance cases .....                         | 4           |
| 5.1                             | General .....  | 4           |
| 5.2                             | Top-level structure .....                                  | 5           |
| 5.3                             | Description of types .....                                 | 5           |
| 5.3.1                           | Context type .....   | 5           |
| 5.3.2                           | Evidence type .....  | 5           |
| 5.3.3                           | Claim type .....   | 6           |
| 5.3.4                           | Inference type .....                                       | 7           |
| 5.3.5                           | Supported claim type and argument type .....               | 7           |
| 5.3.6                           | Narrative introduction type .....                          | 8           |
| Annex A (informative)           | Examples of supported claims and arguments .....           | 9           |
| Annex B (informative)           | An example of top-level structure of assurance cases ..... | 13          |
| Annex C (informative)           | Comparison of terminology .....                            | 16          |
| Bibliography .....              |  | 20          |
| IEEE Notices and Abstract ..... |  | 21          |
