

ISO/IEC 29168-1:2023-03 (E)

Information technology - Open systems interconnection - Part 1: Object identifier resolution system

Contents		Page
1	Scope	1
2	Normative references.....	1
2.1	Identical Recommendations International Standards	1
2.2	Additional references	1
3	Definitions	2
3.1	Imported definitions	2
3.2	Additional definitions.....	2
4	Abbreviations and acronyms	4
5	OID resolution system architecture	5
5.1	OID resolution process.....	5
5.2	Interactions between components in the general OID resolution process	5
6	DNS zone files for the ORS domain.....	6
6.1	Overview.....	6
6.2	Requirements and restrictions on DNS zone files in the ORS domain	7
6.3	Use of DNS resource records for ORS services.....	7
6.4	Security considerations	8
7	Operation of an ORS client	8
7.1	Functional interfaces	8
7.2	Processing a query.....	8
7.3	Converting an OID-IRI value to an FQDN	8
7.4	Processing DNS results	9
7.5	Security considerations	9
7.6	Local performance considerations.....	9
8	Requirements for ORS service specifications	10
8.1	Specification of NAPTR information.....	10
8.2	Recommendations for ORS application processing	10
Annex A – Assigned ORS service types.....		11
Annex B – Specification of the canonical OID (COID) ORS service		12
Annex C – Specification of the child information (CINF) ORS service		13
C.1	General.....	13
C.2	CINF XML file	13
Annex D – Specification of the registration information (RINF) ORS service		15
D.1	General.....	15
D.2	RINF XML file	15
Annex E – Specification of the module information (MINF) ORS service.....		17
Annex F – Description of use cases.....		18
F.1	Canonical OID (COID) ORS service	18
F.2	Child information (CINF) ORS service	18
F.3	Registration information (RINF) ORS service.....	18
F.4	Module information (MINF) ORS service.....	18
Annex G – Examples of ORS operation.....		19
G.1	Example of DNS zone files for the ORS.....	19
G.2	Examples of NAPTR resource records.....	20

Annex H – Implementation guidance for a local cache and copies of ORS zones	21
H.1 Local cache for OID resolution	21
H.2 Local copies of ORS zones	21
H.3 Local copies of ORS zones independent of the local DNS	21
Annex I – Operational guidance for ORS operators	23
Annex J – Changes and compatibility of this edition of this Recommendation International Standard	24
Annex K – History of object identifiers.....	25
Bibliography	26
