European foreword 4

Introduction 5

1 Scope 7

2 Normative references 7

3 Terms and definitions 8
3.1 General terms 8
3.2 Evaluation elements and parameters 8

4 Symbols and abbreviated terms 10
4.1 General 10
4.2 Symbols related to the evaluation workflow 11
4.2.1 Common symbols 11
4.2.2 Phase 2 symbols 11
4.2.3 Phase 3 symbols 11

5 General concepts 12
5.1 General 12
5.2 Functional evaluation phases 12
5.3 Compliance with ISO/IEC 19795 series 13
5.4 Compliance with ISO/IEC 30107 series 14
5.5 Terms and parameters used during the evaluation 14

6 Test data 15
6.1 General considerations 15
6.2 Stored databases 16
6.2.1 Recorded databases 16
6.2.2 Use of synthetic databases 16
6.3 Test crews in scenario evaluations 17

7 Evaluation process for Phase 2 17
7.1 Overall view of the scenario evaluation 17
7.2 TEST-level process 18
7.3 SUBJECT-level process 19
7.4 TRIAL-level process 20
7.5 Families of tests in Phase 2 22
7.6 Families of extended tests in Phase 2 22

8 Evaluation process for Phase 3 22
8.1 Overall view of the scenario evaluation 22
8.2 TEST-level process 23
8.3 SUBJECT-level process 23
8.4 TRIAL-level process 24
8.5 Families of tests in Phase 3 26

9 Additional methodology when evaluating machine-learning-based (ML-based) biometric products 27
9.1 General requirements 27
9.2 Continual improvement 27
9.3 Continuous learning 28

9.3.1 Introduction 28
9.3.2 Evaluation time lapse and infrastructure 28
9.3.3 Period between evaluations 29
9.3.4 Evaluation procedure 29
