

ISO 19307:2026-05 (E)

Graphic technology - Measurement and one-parameter representation of translucency

Contents

Page

- Foreword..... iv
- Introduction..... v
- 1 Scope..... 1
- 2 Normative references..... 1
- 3 Terms and definitions..... 1
- 4 Requirements..... 2
 - 4.1 Background of translucency perception..... 2
 - 4.2 Determining translucency alpha..... 3
 - 4.2.1 General..... 3
 - 4.2.2 Material and Sample Preparation..... 4
 - 4.3 Colorimetric measurement..... 4
 - 4.4 Simulating colorimetric measurements of virtual reference materials..... 5
 - 4.5 Computing translucency alpha for real materials..... 6
 - 4.6 Adjusting translucency alpha for scaled models..... 7
- 5 Test report..... 8
- Annex A (informative) Matching translucency for scaled models..... 9
- Bibliography..... 11
