## Graphic technology - Standard object colour spectra database for colour reproduction evaluation (SOCS)

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Standard object colour spectra .....	1
2.1	Object categories and sample selection .....	1
2.2	Typical set samples and difference set samples .....	4
3	Use of the colour spectra database .....	5
3.1	Use of typical sets .....	5
3.2	Use of difference sets .....	7
4	Permissions .....	8
Annex A (informative) Spectral reflectance and transmittance source data .....		9
Annex B (normative) Typical set selection method for artificial colour groups .....		27
Annex C (normative) Typical set selection method for non-skin colour, natural colour groups .....		29
Annex D (normative) Typical set selection method for skin groups .....		31
Annex E (normative) Difference set selection method .....		32
Annex F (informative) Correspondence between typical/difference samples and original collected data samples .....		33
