## Information technology - Biometric data interchange formats - Part 1: Framework

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | iv          |
| Introduction ..... |  | v           |
| 1                  | Scope .....  | 1           |
| 2                  | Normative references .....   | 1           |
| 3                  | Terms and definitions .....  | 1           |
| 4                  | Abbreviated terms .....  | 4           |
| 5                  | General biometric system .....                                       | 4           |
| 5.1                | Conceptual diagram of general biometric system .....                 | 4           |
| 5.2                | Conceptual components of a general biometric system .....            | 5           |
| 5.2.1              | Data capture subsystem .....   | 5           |
| 5.2.2              | Transmission subsystem .....   | 5           |
| 5.2.3              | Signal processing subsystem .....                                    | 5           |
| 5.2.4              | Data storage subsystem .....   | 5           |
| 5.2.5              | Matching subsystem .....   | 5           |
| 5.2.6              | Decision subsystem .....   | 5           |
| 5.2.7              | Administration subsystem .....                                       | 6           |
| 5.2.8              | Interface .....  | 6           |
| 5.3                | Functions of general biometric system .....                          | 6           |
| 5.3.1              | Enrolment .....  | 6           |
| 5.3.2              | Verification .....   | 7           |
| 5.3.3              | Identification .....   | 7           |
| 6                  | Usage context of biometric data interchange formats .....            | 8           |
| 7                  | General aspects of the usage of biometric data for interchange ..... | 8           |
| 7.1                | Introduction .....   | 8           |
| 7.2                | Natural variability .....  | 8           |
| 7.3                | Aging and usage duration .....                                       | 9           |
| 7.4                | Enrolment conditions .....   | 9           |
| 7.5                | Feature extraction algorithms .....                                  | 9           |
| 7.6                | Feature matching algorithms .....                                    | 9           |
| 7.7                | Capture device type ID .....   | 9           |
| 7.8                | Multi-modal data structures .....                                    | 9           |
| 8                  | Processing level of data formats for interchange .....               | 9           |
| 8.2                | Sensor data .....  | 10          |
| 8.3                | Image data .....   | 10          |
| 8.4                | Behavioural data .....   | 10          |
| 8.5                | Feature data .....   | 10          |
| 8.6                | Naming concept for biometric data structures .....                   | 11          |
| 8.7                | Requirements for standardizing biometric data formats .....          | 11          |
| 9                  | Multi-biometrics .....   | 11          |
| 10                 | Sensor requirements .....  | 12          |

|             |   |           |
|-------------|---|-----------|
| <b>11</b>   | <b>Format owner and format types .....</b>                        | <b>12</b> |
| <b>11.1</b> | <b>Format owner .....</b>   | <b>12</b> |
| <b>11.2</b> | <b>Format types .....</b>   | <b>12</b> |
|             | <b>Annex A (informative) Examples of matching scenarios .....</b> | <b>13</b> |
|             | <b>Bibliography .....</b>   | <b>15</b> |
