Foreword iii
Introduction iv
1 Scope 1
2 Normative references 1
3 Definitions and abbreviations 1
4 Concepts in OSI Management 2
4.1 Users' requirements of OSI Management 2
4.2 The OSI Management environment 2
4.3 Managed objects, their attributes and operations 2
4.4 Management relationships between open systems 2
4.5 OSI Management functional areas 2
5 Model for OSI Management 3 .....
5.1 Overview 3
5.2 OSI Management structure 3
5.3 Supporting functionality required by OSI Management 4
5.4 Management Information Base 4
5.5 Flow of management control 4
5.6 Flow of management information 4
6 OSI Management specifics 5
6.1 OSI Management standardization 5
6.2 OSI Management operation 5
6.3 The form of management information exchanges 6
6.4 OSI Management conformance 6
Annex A - Comments relating to the OSI Management Framework 7
A.1 Introduction 7
A.2 Abbreviations 7
A.3 Brief Overview of OSI Management Scope and Concepts 7
A.4 Systems Management Standards 8
A.5 Management Information and the Management Information Base 9
